[August 1931]

Dear Miss Morgan,

Will it be possible to finish ready for occupancy the two west tower rooms and also the two duplexes and the adjoining room - five in all - by September first.

If we can finish and furnish these we will have that many more rooms

~~more rooms~~ actually available for the fall renting season.

I dont know really what new construction we will undertake but I would suggest that it be no more than raising the roof on the central building so as to make available the gothic suite study at as early a date as possible

If we have time for any other out door work

I would like to spend it on the animal department and get our zoo as contemplated in shape for the winter. During the winter we can finish the music room and some of the other bed rooms in the north wing and also work on the pool and the terraces.

Sincerely

M R Hearst
