SPORTS DINNER

The first sports dinner to be held in the new mess-deck was given last Wednesday. In spite of the sparse attendance, (a mix-up in invitations and a soft-ball game made the crowd kind of small), the dinner was a great success. Awards were given to the five men on the basketball team that played the most quarters. The men receiving awards were: Bill Koren, Tom O'Connell, Roy O'Farrell, Don Allison, and Rick Morris.

The menu for the dinner included very excellent, cooked-to-order, filets. Mr. Ross and his galley crew really put on a fancy spread. Ice cream for dessert and a table cloth rounded out the banquet. During the course of the dinner CMA sports in general were discussed. It is hoped that this dinner will not be the last. One a semester in the messdeck and one at a restaurant during shipyards would promote the morale of the teams no end.

UNIFORMS

As is well known by everyone, there will be quite a few uniform changes and additions for the coming year.

One item of interest is the collar device. They will be worn as follows:

Departmental insignia,
Deck - - - - - Anchor
Engineer - - - - - Propeller

1st. Trimester Third Class

No device

Third Class

Left Collar - - - - -Departmental device

Second Class

Both Collars- - - - -Departmental device

First Class

Right Collar- - - - -Bar or Rant

Left Collar - - - - -Departmental device

The sun-tan uniforms are optional for the upper classes, but in ports requiring suntans those midshipmen having only blues will be required to wear their blues. Money for suntans must be payable immediately upon return from post-graduation leave.

The uniform regulations will be promulgated shortly and will be patterned somewhat along the lines of the Navy Uniform Regulations

WHALEBOAT RACE

The day of the second class whaleboat race has been advanced to July 25th as finals begin on the first of August. The race promises to be an interesting and close one. The second class engineers are generally more beefy, but the deckhands seem to have the edge experience-wise, so the winner will no be decided until the first boat crosses the finish line.

SOCIAL NEWS

Midshipman John "Sourdough" Davis spent last weekend in the Motherlode country panning for gold. When questioned as to his sudden interest in seeking a fast fortune he was heard

(Cont'd)

On Wednesday the twenty fifth the Kiwanis Club of Napa and St. Helena will hold an evening meeting.

SOCIAL NEWS (con't)

THIRDS QUARTERS

was heard to reply, through his weekend growth of whiskers, something about supporting a movie star in the style to which she was accustomed.....He plans to spend the coming vacation in the hills. M.G.s, we understand, are pretty expensive.

Fifteen of the First Class Deck will be living at the Navarre House during the time they are out for their licenses.

The Navarre House is on the corner of Stockton and Sutter Streets.

No wild parties this trip.

WHERE FORL NO WOMEN?

THE BOX SCORE

After the announcement was made that Midshipmen's dates would be welcome on the base on weekends, there was a fine burst of enthusiasm and several midshipmen complied with the advice. However since that first weekend no one else has done so. Granted the recreation center is not yet built, but the swimming pool is certainly open, and the fair sex is just as welcome as it ever was; so lets bring 'em along; it makes things more interesting for the watch section.

After coming close to suffering their second no-hit defeat at the hands of the same pitcher, the CMA softball team finally staged a rally, but fell short as U. & I. Oasis defeated them 4-3 in last night's game in Vallejo. The hitless string of 12 1/3 innings came to an end in the 6th inning when Leroy Baldwin sent a hard smash to the outfield for a CMA hit. Three more hits in the next inning led to 3 runs for CMA, but they proved useless as U. & I. had already won the game in the 5th inning due to erratic fielding by the Academy team. Willie McMillin proved himself just as untouchable by pitching no-hit ball for 4 innings before giving up a harmless blow.

RECREATION CENTER NEWS

SPORTS OF THE DAY

On the attached sheet you will find the map compiled from a survey by MS Tharrando and Devo. As you can see the area available should be more than sufficient, and there are water and electrical connections available. Anyone with recommendations regarding the size, shape, type or what-have-you of the proposed structure should submit them to the editor's mailbox some time during the coming week, keeping in mind the dimensions of the area available. If we get behind this thing, construction should start almost immediately after we return from vacation.

Tennis - Low Hoad, blockbusting Australian, as at his power-hitting best as he overwhelmed countryman Ken Rosewall to win the men's singles title at Wimbledon. Shirley Fry finally made it after nine long years, easily beating England's Angela Buxton, for woman's crown after upsetting Althea Gibson and defending champion Louise Brough. Other winners were Hoad and Rosewall in the men's doubles, Gibson and Buxton in the woman's doubles, and Fry and Seixas in the mixed doubles.

GRADUATION AWARDS

Some nine achievement awards will be presented to the graduating class. There will be three sets of Binoculars, a micrometer set, two wristwatches and three merchandise awards.

Boating-Princeton's 150-pound crew warmed up by beating Kent School in the semifinal, put powerful boat to work to outstroke the Royal Air Force for the Thames Challenge Cup in the Royal Henley Regatta.

MEETINGS

The California Maritime Academy Committee of the Vallejo Chamber of Commerce will meet here for luncheon Tuesday the twenty fourth.

The 56-foot yawl Jada, smallest boat in the field, trailed the 89-foot ketch, Novia Del Mar, across the finish line by nearly three hours, but used her two day handicap to win the 3,571-mile race from Los Angeles to Tahiti. Eye-catching Sea Fever, displaying unique transome-style stern for the first time, sailed to victory in AA class during the PCYA-PIYA regatta out of the Royal Victoria Yacht Club.
