

ARE WE READY TO LIVE WITH IT?

Within days, the Nuclear Regulatory Commission will be deciding whether to start up the Diablo Canyon nuclear plant. Are we ready to accept this -- an operating nuclear plant next to an active earthquake fault just a few miles from our homes?

If not, you can join our Community Rally on August 12 and take a public stand against Diablo. The whole nation is watching to see if we can stop Diablo. Our presence on August 12 will send a potent message: We, the public no longer approve of the risks associated with Diablo Canyon. We take a stand today.....or we live with Diablo tomorrow.

COMMUNITY RALLY

August 12th 7:00 p.m.

MISSION PLAZA - SAN LUIS OBISPO
