# You May Think You Know Gary Hart . . .

## The Fourth Highest Spender In The Senate

Senator Gary Hart  
\$531,083.13 of your tax dollars.

It costs less than \$3500<sup>(1)</sup> each year to keep a child in school in Santa Barbara and Ventura Counties.

It costs the taxpayers of California \$531,083.13 to keep Gary Hart in office. He spends more money on staff, luxury office space, and frills than 91% of his colleagues.<sup>(2)</sup> He is the fourth highest spender in the State Senate, and he's showing no signs of slowing down.

It takes someone with common-sense to make our laws . . . a person who doesn't frivolously waste tax dollars on the frills of public office when we need more money for teachers and classrooms.

In a time when California's educational test scores are lagging, we need someone who leads by example. We need someone who prudently spends the taxpayers money on programs that will benefit our children . . . not high priced office space and salaries.
