Dear Mrs. Barnberg:-

Was very glad of your letter telling of the desire of the women of San Luis Obispo to be organized for work - the community - & federated with other clubs -

If the Book Club can not resolve itself into such an organization, it might take the initiative - bringing the women together & putting

up the proposition to them.

San Luis Obispo needs the
concerted thought & action of
its women - with their
ideals & power - and the
women & homes need the
quicken^g influence that
such an organization gives
out thro' its workers - and
the Federation needs to
touch such a group - San
Luis Obispo -

which you might like to
look over -

With the best of wishes
+ willingness to help -
any way I can -

Most Sincerely

Adeline C. Sorbeer -
(Mrs. J.B.)

My official paper is all gone
therefore the personal

I do not know of any
national organization which
you could join, and believe
the only effective thing you
could do would be organize
+ federate. Mrs. McKelvey,
the Parliamentarian, would be
glad to help you in organizing
and I know Mrs. Tall would
give of her valuable assistance.
