Dr. and Mrs. D. M. Tolmach

Oxnard, California

Dear Jane and Dan:

Your concern and your support is a great source of strength to Geneva and to me. Thanks so very, very much.

She came home from the hospital on Thursday, December 11, and flew to California for therapy three days later. She is better every day. We've secured, I believe, the best possible care for her.

Rob was able to fly back the moment it all happened, and was tremendously helpful. Kim finished his term at the University of California at Santa Cruz a few days later, and his presence, too, meant a great deal to us.

With deep appreciation from each of us.

Always,

Alan Cranston
