

PDC

When you get
home your
mom would like
you to call her.

Dr. Turnfeldt
says I have an
infection in my
bronchi" so he gave
me tetracycline for
it - plus a new kind
of potassium that

hith inks better
than what I've
been taking.

He also said I'd
been getting too
much digitalis. -
I'd been taking it
faithfully, so stop
it for couple of
days.
