

21 pigeons...
state how many live in
one palm tree.

Maybe some are visiting,
maybe some just come to call,
maybe but...

21 pigeons
live in a palm tree,
how do I know?

There are 21 pigeons
further to further on telephone
line about yesterday,
was there some & today is

the man in the house
on the corner's trimmed
tree - trimmed of all
branches & leaves.

21 pigeons on a
hydro line, its eye
so familiar sky, the
heart in bewilderment;
and civilized men
content: ~~in in thought~~
- "now I won't have to
clean that damn sidewalk."
