

# Golden Bear At Long Beach Enroute Here From Mission

LONG BEACH — (AP) — The California Maritime Academy training ship Golden Bear arrived here last night, back from a goodwill trip to Italy, France and Greece with a cargo of canned milk. Nearly half the cadets aboard, from Southern California communities, hurried ashore to greet relatives and friends. "It was sure a real thrill to see the kids in Italy, because they were tickled just to be able to help carry some of the milk ashore," said Earl Warren, deck cadet and son of the Governor.

Capt. Ralph M. G. Swaney, commander of the 428-foot vessel, said it received an ovation in each of the 21 foreign ports visited in eight nations.

Long Beach and Los Angeles

city officers will be guests aboard the Golden Bear at luncheon today. The ship will leave for Santa Barbara tomorrow evening.
