School Presented Engine Display-Study Board

The California Maritime Academy yesterday was in possession of an elaborate display-study board, incorporating salient features of a big marine propulsion steam turbine, presented by Westinghouse Electric Corporation.

Walter J. Maytham, of San Francisco, Pacific Coast district manager, presented the board on behalf of his company.

The idea was conceived by Harry A. Doell, an academy alumnus, now an engineer for the Los Angeles Department of Water and Power. He said it would be a valuable aid to academy midshipmen studying turbine engine design and engineering, thermodynamics and ship operation.

The gift was formally accepted by Commo. Russell M. Ihrig,

USN, (ret.), academy superintendent, in brief ceremonies Tuesday.

NEW ENGINEER

Eureka — (AP) — Humboldt County supervisors have appointed John Davis, Palo Alto engineer, county road commissioner. Davis will succeed Aino Steinberg, whose resignation will be effective as of June 1.
