HEARST CAMP
SAN SIMEON
SAN LUIS OBISPO CO., CALIF.

Feb. 18, 1927.

Dear Mr. Rossi:

The packed windows did well during the early part of the night but later one of them blew open - not being securely locked I imagine, - and the room was deluged with water.

These storms are very hard to defeat. I wish you would make the various alternations we have planned while I am here. I would like to see them made and be sure they are right. I would not like to have another winter at the ranch under present conditions.
