

754 Franklin Street

Oakland Cal

Dear Dad,

I mailed your letter for Emma to
Washington and hope she'll get it - have had no
letters from her since she left here - it had rained
all the way to Omaha - but she was in one of the
newest Pullmans - only 9 passengers besides themselves
so she was very comfortable - and found it warm
on her arrival at Chicago - the New York reports
say last week was perfect weather there - I guess
Pam told you how he enjoyed a drive with Anita
Whitney on a perfect day - I know how pleasant that
used to seem to me - Pam is a real good
man - he has written so kindly about Sam - it
really pleased me very much - he treated Sam so
cordially - and was glad to see him - he wrote he had
a letter from you - Kittie Tellor was also in New York

last Sunday Arny took me to Santa Cruz on an
excursion and last night he took me to the
Tiroli to the Opera of Hannover - he did not
consider the Tiroli - presentation quite up to
the Paris Opera or La Scala in equal to
Selma who he heard in Paris - but he looks at
all in - and remarked any woman who behaved
as that one did could only expect to be
skipped or killed in some fashion in the end -
he seems well - Pa is very well - Bertie Bayley
haight got a divorce last week on the ground
of cruelty - I guess it was agreed between
them - both were more than willing to part.
She testified in court, that he'd thrown a dish
of salad dressing at her and ruined her dress,
in a restaurant, and also picked her up and
threw her across the room - all at a dinner
given by Mr Wedder & Mr Somers.
There was a picture of the first elevation
Arny ever made ^{in the laboratory} and saw in print, he cut
it out, and was going to keep it - he took it
out at the office and showed it to me

Mathews who immediately wrote it away and he
has not seen it since - there was a picture of
the ceremony in the next day's paper also done
by Wey - he cut that out and put into his
pocket - but don't intend letting Mr Mathews see it -
he can cut his out of his paper - I send you
a litho made with the Berlin Building - Corry's 1st
Elevation public printed - Mr Mathews usually refuses
the reporters when they come for them - also in
the same litho is a notice about you -
a cable sent to the New York Sun - also sent
to the "Examiner" & "Chronicle" before I had my hair curled
Saturday a Reporter sent up he wanted to see
me - Julia told him he could not see me - so he
sat down in the parlor and wrote me a foreleg
little note asking for something about you and
your work and also for your picture - I sent down
word that I had nothing to tell - knew absolutely
nothing to tell - you did not wish your picture
in any paper and I had no good one - he
wanted Julia to let him take Nina's picture
she said, that! wasn't Miss Morgan - then he
said let him take Cassie's - but he finally
left - said he wanted to give you a
complimentary note up - it is harder than
young men - about any his books they appear

3
"that you must be doing something I can tell
them" - they firmly believe - one way it keeps you
before the Public as an architect - a friend of mine
met me today and said her daughter had re-
proached her for not having written and con-
gratulated me on my clever daughter re-
I went to Church last night after visiting the
above - it was Monday night - Arny received
your letter tonight when he came home from
work - he looked pleased as usual - I'm glad
you are well and I hope you will take care
of your precious self - Tonight Arny went out
to his frat. home to talk with his brothers about
building a house - they have no lot, and no
~~money~~ but want one - I think they'd best get
another two year lease of the one they now have
It is a large very goodly house - they have a
fine one at Stamford built on leased land so they
could build a better house not having to pay for
the land - Berkeley lots near the U.C. are higher -
I had a fine letter today from Sam he was
in Chicago - but the works had not got there
but were due that evening - he'd met Ted
Walter the Garbans cousin and was
going to lunch with him - and in the
evening expected to meet his wife -
from Chicago he goes to New Orleans.

This is a miserable letter - but I'll have
to let it go - Hoping you will excuse it
and believe that I am always

Yours loving
Ynes
