Mr. William Randolph Hearst,
137 Riverside Drive,
New York, N.Y.

Dear Mr. Hearst:

In regard to fire screens - Do you see them so decorative that they become "features" in themselves, or do you see them simple? I have been slow in getting them because I realized you did not like those we had made, - and yet the ones of the type of the "cut" enclosed are found in so many new houses, decorator's shops, etc. that they might not seem very distinctive.

It has been the lack of sureness, rather than laziness which has held them back. I enclose a few sketches.

Yours very truly,
