SIXTEENTH ANNUAL COMMENCEMENT
CALIFORNIA STATE UNIVERSITY, FULLERTON
MAY 30 & 31, JUNE 1, 1975

MESSAGE FROM THE PRESIDENT

Welcome to the 16th annual Commencement of California State University, Fullerton. We are pleased to have you on campus during what promises to be a memorable event.

In keeping with a pattern introduced in 1974, the University is again holding a series of graduation exercises rather than one campuswide ceremony. This approach is particularly useful in serving the diverse program interests of candidates and graduates, who this year range in age from 20 to 78. Moreover, because it is now possible to personalize the proceedings to a degree formerly unattainable, the end result is likely to be more meaningful for all concerned.

More personal recognition is important, for the accomplishment we celebrate today marks a milestone in the lives of those fulfilling degree requirements. May it also represent a significant step towards a future which provides both individual advancement and personal satisfaction.

L. Donald Shields
President
California State University, Fullerton

EXPLANATORY NOTES

LISTS OF CANDIDATES: Students eligible to participate in the 1975 Commencement exercises are January 1975 graduates and June 1975 and August 1975 candidates for degrees. This program does not constitute an official degree listing. The appropriate diplomas will be issued to candidates who have completed all requirements.

GRADUATION WITH HONORS: Honors at graduation are awarded to undergraduate students in three classifications and take into account all courses taken at Cal State Fullerton and other institutions of higher learning. The minimum grade point averages follow: Honors, 3.5; High Honors, 3.85; Highest Honors, 4.0. Honors notations appearing in lists of June 1975 and August 1975 candidates are based on the student records at the end of the fall semester 1974. Official designations are dependent upon the complete student record.

PHOTOGRAPHS: Guests wishing to take photographs during the exercises are requested not to block the view of others or to enter the area between the audience and the platform.

FOOD SERVICE: Beverages, cold sandwiches and snacks will be available for purchase from a mobile food station operated by Titan Shops, Inc. Located within view of the seating area, the station will remain open until the start of the final exercises on each day of Commencement. In addition, the snack bar on the second-floor patio of the Letters and Science Building will operate from 8 a.m. to 5 p.m. Saturday and from 1 to 5 p.m. Sunday, and vending machines will be stocked at various campus locations.

SMOKING: Please, no smoking during the exercises.

EMERGENCIES: Personnel from the Student Health Center and the University Police Department will be on duty to provide aid in the event of emergencies. The emergency phone number is 870-3333.

LOST AND FOUND: The University Police Department will operate a lost and found service during the exercises. The phone number is 870-2515.

RAIN: In the event heavy rain coincides with any of the outdoor exercises, a ceremony may be moved to the Gymnasium where the limited seating for guests will be on a first-come, first-served basis.

REGALIA

The history of academic dress goes back to the medieval European universities of the 14th century. European universities continue to follow varied patterns in cut and color of gown and type of headdress. United States universities have standardized the academic dress so that its features are common and uniform throughout the country.

THE GOWN: The gown is ordinarily black for academic degrees, but certain universities have authorized the use of colored gowns. Light blue gowns are worn by candidates for associate degrees in terminal technical curriculums. The pattern varies with the degree held: pointed sleeves for the bachelor's degree; short sleeves for the master's degree; and round, full sleeves for the doctor's degree. The bachelor's and master's gowns have no trimmings. The doctor's gown is faced down the front with black velvet and three bars of the same material across the sleeves—or the color of this velvet may be that of the subject in which the degree is granted.

THE HOOD: Hoods are not usually worn for the bachelor's degree. The master's hood is shorter and lacks the panels of the doctor's hood. Hoods are lined with the color of the school, two colors being shown by putting chevrons of one color on the other color. The binding or edging of the hood is velvet of the color pertaining to the subject of the degree.

THE CAP: The standard cap is the mortarboard, usually the color of the gown. The standard tassel is black, but at Cal State Fullerton many students wear tassels reflecting their disciplines. Doctors' caps have gold tassels.

TRIMMINGS: Color trimmings on doctors' gowns and hoods indicate the following: light blue, Doctor of Education; dark blue, Philosophy; white, Letters; brown, Fine Arts; golden yellow, Science; purple, Laws; pink, Music; green, Medicine; scarlet, Divinity; and crimson, Humane Letters.

THE MACE: In use this year for the first time is a mace designed especially for Cal State Fullerton by John L. Berg, a graduate student in art who earned his Bachelor of Arts in communications in 1973. The design of the mace stems from research on the University conducted by the student and is described by him as follows:

"With a conscious effort to combine the symbolic values with the visual elements of the mace, I examined the architecture of the campus and became aware of repeated forms. It is the combination of two forms, in particular, on which I based my design for the mace. I chose the cantilevered pillar form found at the base of the Library, Humanities-Social Sciences Building and Langsdorf Hall, as well as the hexagonal form, the hallmark of the University, usually represented on the facade of most structures. By bringing these two forms together, I was able to construct elements which make up the head of the mace. Each element symbolizes the individuality of each school and division within the University. At the same time, they emphasize their common source by supporting the seal of the University found at the top of the mace.

"For the stem, I chose cocobolo. This wood is orange in color, bringing to mind the county in which the University is located, as well as recalling the fact that the University is situated on the site where the first commercially grown valencia orange grove was started.

"The University's colors of white and blue are represented through my use of ivory and niello."
