1416 Ninth St.
Sacramento, Calif 95814

Dear Mr. Kraemer,

At The Sierra Club Board of Directors meeting in San Francisco on May —, 1977, Ms. Dedrick told me that you have done some research on The intent of Congress in creating The Mineral King National Game refuge. She also told me that if I would contact you, you would send me what material you have relating to this subject.

Thus I would very much appreciate your sending me this material at your earliest convenience. I am particularly interested in The legislative history of The bills involved.

Sincerely,

GWW
