During the 1990's you will see a stronger focus to increase the number of women in government as assurance that equitable and effective representation for women is achieved. The Ventura County Commission for Women has undertaken a project to help provide access and information to Ventura County women for service on the various boards, committees and commissions which exist in local, regional and state government agencies.

The California Elected Women's Association for Education and Research is conducting the California Board and Commission Outreach Project. Although, primarily a State project focusing on State boards, committees and commissions, information derived from this outreach will assist women in securing appointments at all levels of government.

With the support of the Board of Supervisors, the Ventura County Commission for Women is taking the lead and planning a strategy session to form a local appointments coalition of all women's groups (designed as non-partisan, with ethnic and economic balance in membership), to provide a stronger and more viable base of women leaders in Ventura County.

Please join us on Thursday, February 28, 1991, 7:00 p.m., at the Ventura County Government Center, Hall of Administration's Multi-purpose room - 3rd Floor.
