El Pudor

El pudor es adorno muy bello de la mujer, como que, el sentir de una escritura insigne, el pudor debe reputarse como el pariente mas proximo de la virtud; en concepto de Bacon, es el cuerpo lo que la discrecion al alma. El pudor en la mujer es flor tan delicada, que el soplo de una imprudencia lo ofende, y el calor de una mirada torpe lo agota y lo marchita.

Pero a la vez el aroma de una flor, produce la mas casta y la mas delicada de las complacencias.

Tratar a las mujeres sin ofender ni levemente su pudor sin que se asemele el carmin a sus mejillas, es la ciencia que la juventud presenta descuidada mas de lo justo. Las ideas que dominan a la galanteria, se hallan por lo general tan lejos de la razon que mas bien parecen hijas del espiritu de ternura y de cariño.

En este asunto la ciencia del hombre consiste en fingir; la ciencia de la mujer debe consistir en dudar.

La galanteria en ciertos labios es el prologo de la seducccion. Es como se ha dicho con verdad, un juego en que es interesa; los hombres arriesgan en el la sinceridad, y las mujeres, para hacerse verdaderamente amables, deben respetar al pudor, tenerlo muy arraigado o ignorar que lo tienen.

Un alarde de pudor viene a ser muchas veces testimonio de malicia. Mujer cuyo pudor se alarma facilmente, no ofrece una gran prueba a favor de ese ignorancia amable que bien sienta en su sexo.

Mujer que escribe sin precaucion las frases y las demostraciones de la galanteria, es como una niña que juega con un cortaplumas.

This coming Friday the 27th of July, the elite of society will attend the 3rd Club San Felipe anniversary formal ball. It will be at the Hawaiian Gardens, from 9 P.M. to 1 A.M. and the music will be provided by the ever popular Chico Ochoa. While it is not mandatory that the men wear dinner jackets, the San Felipe boys will wear their formal attire from Selix where you are always treated courteously. The bids for the Ball are \$4.00 per couple and you can call any of the following numbers, CY 8-1583 or CY 7-4154, they will be delivered to your door or get them from any of the Club San Felipe members.

This year Club San Felipe representative is lovely Nora Elia Terazas. Mr. David Ortega Cid of Radio station KOFY will be M. C.

Our sincere thanks to Mr. Frank & Ray Davilla for having us their guest June the 30th. Everybody

CLUB SAN FELIPE has completed arrangements for their 3rd ANNUAL FORMAL BALL to be held at the HAWAIIAN GARDENS (Terrace Room) on Friday, JULY 27. CHICO OCHOA will provide the music for Dancing. The way the bids have been selling this

had a ball and quedamos tan agradecidos como enpicados.

This is not an apology but Jess Zertuche is such a fine guy that calling him Valentino was an injustice. They don't come any better than him.

Rudy Chavez is a new radio personality on radio station KLOK. Rudy previously was with a station in Phoenix, Arizona where he gained the experiences that enables him to put on a terrific show. He should be given more time on the air, that is the consensus of the public.

Sr. Saldana, mis felicitaciones por el magnifico articulo publicado en El Excentrico del 7 de Julio.

YOU CAN FORETELL YOUR FUTURE TODAY

Impossible, someone will say, how can I foretell my future today? But as certain as you are reading this, so is it certain that today you can foretell your future!

Fame or misery, rags or riches, success or failure—your choice you can know today.

You are a pilot to a great ship in the vast midst of the sea. You are at the stern, you will guide this powerful machine and arrive at whatever destination you choose. The ship is analogous to the mind, and it waits to be manned, guided, and controlled.

It is an established fact that in the average person about 90% of the mind remains dormant; this proves, then, that men simply don't think! His mind limitations are self-imposed! The mind is a God-given faculty that was given us without charge. True one has a tendency to place greater value on those things paid for, but the mind is one object that cannot be taken for granted or placed minimum value on. It is the greatest unexplored area in the world, in its exploration can be found the answer to one's destiny.

Do you wish to settle for conformity or allow yourself to become a victim of circumstance? Will you reason that because of circumstances your destiny and fate have been determined? The wise pilot is anti-thesis to this; he will steer his ship away from the existing storm and unpleasant circumstances and guide it along another path. He will look for the circumstances he desires, if he cannot find them, he will make them. This is the pilot that will make the grade, the pilot who will arrive at his predetermined destination, barring all circumstances.

So you inquire, what relation exists between the mind and the foretelling of my future? Precisely this: You use your mind in the way you think and what you think today you will be tomorrow!

If you wish fame, your every thought must be fame, fame, fame. If you desire misery, you will think misery today and it will be yours tomorrow. Rags or riches—that is foretold by your thoughts today. If you will allow your mind to soar the sky and you will think positive thoughts, yours will be success. If you allow your mind to dwell on the level of inactivity, and you will think negative thoughts, yours will be failure.

Yes, your future can be foretold by your thoughts today. What does your future foretell?

FOOD POISONING

It's A Question of Temperature

For the bacteria that cause food poisoning, "Life begins at forty" and ends at 140-degrees fahrenheit, that is. Room temperature is usually around 70 degrees. Foods that are going to be served hot need to be kept very hot--above 140 degrees--until they are eaten. Foods should be cooked thoroughly. If foods are re-heated or cooked less than an hour at 350 degrees F., be sure your pans are shallow enough so that the temperature in the middle of the food is too hot for bacteria. When possible, use several small pans instead of one large one.

Foods that are going to be served cold should be cooled quickly to 40 degrees or below, and kept refrigerated until time to serve them. Use shallow containers, not over 4 inches deep, so that the food will chill through quickly.

When perishable foods are being prepared, remove only small amounts from the refrigerator or stove at one time. Bacteria can grow during long periods of preparation.

Remember it is the temperature of the food that counts--not the temperature of the refrigerator or the oven. Ask yourself before you begin planning food for a large crowd: Will the oven hold all the food that must be kept cold? If you do not have enough oven space, a local bakery will usually bake or roast food for you at a reasonable charge. Extra refrigeration space can often be rented or borrowed through freezer locker plants. **KEEP HOT FOODS HOT AND COLD FOODS COLD.**

It's A Question of Time

If food ready to serve is kept longer than one hour at room temperature before it is eaten, food poisoning bacteria may contaminate it. When you cook at home for your own family you usually prepare the food when the family is ready to eat. On the other hand, food prepared for large crowds is usually fixed ahead of time and held until eaten. Don't give bacteria time, at room temperature, to poison food.

It's A Question of Food Handling

Keep hands away from food as much as possible. Use spoons and tongs. The bacteria that cause food poisoning lurk everywhere. It is hard to keep them out of food. They can be found in the nose, throat, and on the skin. Anyone with a cold, an open cut or boil should stay out of the kitchen and serving room! Make sure their is plenty of soap, water and a supply

of paper towels handy. **WASH HANDS OFTEN.** Be sure that hands are thoroughly washed after using a handkerchief or going to the toilet.

Food poisoning is not always from bacterial action. Beware of poisoning caused by poisonous chemicals accidentally put into food. Don't keep poisons in places where food is prepared. Poisonous sprays may have been used on fruits or vegetables, wash them carefully. Don't use insect sprays over or near foods. Don't keep fruit juices, lemonade, or any acid food or drink in galvanized containers.

Many diseases can be carried by foods too. For instance, trichinosis can come from eating underdone infected pork. But if proper cleanliness and sensible food handling methods are used, most of these can be avoided.

Call your health department for help if you are going to serve a large crowd. A sanitarian will be glad to help you plan for safe food.

Spares & Strikes

Mario R. Vazquez

It's the wrong place to go but last week there was a homecoming day in Los Angeles for people from Del Rio. Nothing like having a wedding. Mickey Guardia and Edna Guzman, of a Del Rio couple and invite people from all over. Aside from a few from San Jose people came from all over. Then, of course, I spend all the day before in Disneyland. Even I enjoyed the fun. Beats The Worlds Fair. That was my third expedition.

And back in San Jose for a week was Reynaldo (Chafan) Paredes. You should have seen all the couples at the Sakura Gardens in Mt. View trying to eat steak with chopsticks. Everyone had sore legs and knees. And everybody washed their feet twice. You had to take off your shoes. Sure reminded me of my days of old I spend in Japan—two and one half years.

I don't think the bowlers from Fremont Bowl will invite me to bowl with them again. In four games, the only time I've ever bowled in Fremont, I had games of 209-246-178-209 for an 842 or a 210-2/3 average. Best I've ever bowled. Had 24 strikes in 40 frames.

Just can't understand Tony Flores and Manny Flores (cousins or runs in the family), as Tony Flores usually bowls good and bad and sometimes average and on the average better than Manny. But in the recent tournament, Tony bowled a 601 scratch plus 90 handicap for a 691 total. Then Manny, as he did last year, in the sweeper a 248 and a 625 series plus 92 handicap for a total of 717. Naturally he won. John Calders took second with a 632 and I had to settle for third place with a 630. Only trouble with Tony was missing his spares. He sure had a lot of strikes.

Little is there to say of San Jose Refrigeration in the 846 Scratch Bowling League at 4th St. Bowl as they have won 23 out of 24 in their last winning spree including 19 in a row. They are one point out for first place as the league has become a two team race.

Aside from Levi Strauss leading the league, third place is six points behind second.

By press time, Mario's All Stars (what else) will be bowling in the State Tournament in Santa Barbara. Bowlers are future PBA Lalo Ruiz, John (Chapo) Muraira, both of Del Rio, Rafael (Just Married) Rodriguez, and George Lassalle. (How did he get in there).

It's nice to hear from Daniel Saldaña. For all of those people who can't tread Spanish (all from Del Rio

can) it explains the respect writers should have for all people trying the better the standard of living and their positions in various jobs representing the Mexican American people, no matter where they come from. Nobody gets rich, without working.

Catalina Barragan

La China Poblana

Nacida en la monarquía de los Grandes Mogoles, y de un matrimonio de gentiles se llamo Mirrha. Una mañana la cuna de Mirrha amanecio vacia. Durante cinco días y cinco noches fue buscada por los contornos del palacio por sus padres y los fieles servidores.

Al sexto día cuando ya no creían poder encontrarla ni siquiera muerta, hallaron a la princesa que sostenida por un junco flotaba mecida por la corriente.

Mirrha creció, como los turcos se acercaban a la ciudad amenazando a sus habitantes, el padre de la princesa trasladó la corte a la ciudad de la costa, donde en vez de los arboles bajo cuya sombra creció Mirrha, había una selva de mastiles blancos.

Un atardecer en que caminaba por la playa, mojado sus pies en la húmeda arena, surgió de pronto detrás de una peña un grupo de hombres de negra pelambre, largos bigotes caídos y sucia cara. Una mano le cubrió los ojos y luego sintió que la conducían en un esquife. La pusieron dentro de un galeón, donde le arrancaron las joyas que adornaban su cuello y sus dedos. Allí quedó entre los desechos corrompidos de mercancías sobre las maderas por donde se arrastraban las enormes ratas; pero en la obscuridad cuando el terror la hacía entrechocar los dientes, Mirrha vio, con frecuencia, un bello rostro, del que la bondad fluía como una luz tibia.

No supo cuanto tiempo duro en su prision flotante porque ahí el día y la noche eran iguales. Cuando las maderas no rechinaban con fuerza oía los chillidos de las ratas, encaramadas sobre un fardo. Con la misma voilencia con que la pusieron en las tinieblas la sacaron un día a la luz del sol. Cuando pudo ver, creyó que era la misma playa en que antes corría feliz, porque había en ella, también, una selva de mastiles blancos en los que se agitaban las bandoleras de vivos colores.

Paso de unos años a otros, de un puerto a otros puertos. Un hombre alto con el rostro sin barba ni bigote, avanzó un día hacia ella y dejó caer en su cabeza un poco de agua mientras decía palabras, semejantes a las que decía su padre. Después de la ceremonia la llamaron con un nuevo nombre: Catalina de San Juan.

Una noche un grupo de rudos hombres que jugaban a las cartas. En medio de la gritería que moría en el mar, se volvían a verla, y había horrible muerca. Después se inició una lucha entre ellos cuando el más joven la tomó en sus brazos y quiso llevar-

sela. Otro les arrojó una lanza que reboto sin herirlos. Grito pidiendo ayuda, pero sus gritos también murieron en el mar agitado. Hasta el fondo del galeón, donde fue a ocultarse para escapar de los que la perseguían, llegaron las voces de los que gritaban roncamente:

Ven, Catalina de San Juan.

Al día siguiente la encontraron en su escondite y la llevaron en una barca a tierra. Entonces conocieron casas y gentes extrañas. Vivio mucho tiempo al lado de una vieja que a veces clavaba sus negras uñas en su carne blanca, hasta hacerla gemir.

Una tarde la vieja recibió un puñado de monedas de oro, mientras hablaban en una lengua que ella no conocía. Volvieron a embarcarla, pero esta vez pudo contemplar durante el viaje, el cielo reflejado en las aguas inquietas. Un día vio perfilarse en la lejanía una torre y oyo que los marineros repetían una palabra: Acapulco.

Al arribar, la esperaba en la costa un caballero con vestido azul, sembrado de brillantes botones. Le dieron a entender que era quien había pagado su rescate. Mientras recorrían el sendero que se perdía entre las montañas aprendió su nombre: Miguel de Sosa. El camino terminó en una gran ciudad. Allí una dama tendió los brazos a Miguel de Sosa y a Catalina le puso una mano sobre su cabeza. Juntos fueron a un edificio donde al entrar, hicieron que se arrodillara. En aquella ciudad, que era Puebla de los Angeles, vivió Catalina de San Juan. Como su belleza realizada por los atavíos de oriente era sensacional que atraía a los malvados, Dios le concedió que la perdiera. Por voluntad de sus amos se unió en matrimonio con un esclavo chino, pero siempre llevo una vida ejemplar.

Al morir sus restos fueron llevados a la Sacristía de la Iglesia del Espíritu Santo, donde descansaron bajo una placa de tecalie en la que aun se lee:

"Guarda este sepulcro la venerable en Cristo Catalina de San Juan la cual el Mogol dio al mundo y la Puebla de los Angeles al cielo."

La voz del pueblo la llamo "la china poblana" y de cuyos trajes con el correr de los años nació el traje de nuestras "chinas poblanas".

Spinal Adjustments Act Quickly To Relieve Stomach Distress

Judging from most of our patent medicine ads, gas formation is one of the most common complaints of the world. Individuals who suffer habitually from this condition wonder why, despite their taking practically tons of pills.

It is true certain foods such as onions, cabbage, and beans have a tendency to cause bloating and distention in the abdomen, but an oversensitive and irritated digestive system is usually the basic cause of gas formation and can often be traced to disturbed nerve innervation which prevents the proper digestion of the food and produces gas.

When food enters the mouth, the brain which is the only power plant of the body receives a signal which puts the nervous system into action. Immediately the flow of saliva (which is an enzyme called ptyalin) changes starchy foods to sugar which is the first chemical change preparing the food for digestion. Food is then passed to the Pharynx where this powerful nerve energy starts the muscles of the pharynx working to force the food down the esophagus (the path to the stomach). When food arrives in the stomach, the nerves of the stomach start the millions of glands producing gastric juices which contain hydrochloric acid, pepsin and rennin. Then by nerve energy the muscular walls of the stomach churn the food to mix it thoroughly with the gastric juice. Small amounts of food are now pushed into the small intestine which is 23 feet long where the major part of digestion occurs. Secretions from the liver and pancreas insure the splitting of the foods into substances which can be absorbed into the blood.

The large intestine, which is only 5 feet long, passes the indigestible part of the food out of the body.

The entire digestive system depends on nerve power from the brain to function properly. When this powerful nerve energy is impaired by displaced vertebrae in the spine, muscular activity is lessened. Glands Cannot function properly, food will not digest, resulting in stomach disorders.

Conditions of the stomach that respond successfully to chiropractic adjustments: Gastritis, Peptic Ulcer, Gastrolgia Hyperchlorhydria, Hyperchlorhydria Hypertension, Nervous Dyspepsia.

MOLINA TKO's MEDINA in 8TH ROUND JUNE 26

San Jose's pride Luis Molina outclassed Benny (The Bandit) Medina from Fresno, here at the Civic Auditorium Tuesday June 26th. The cagey Molina was more cautious than in all his other previous battles, used his old noodle against The Bandit and was pretty rough with the boy from the San Joaquin Valley.

Most of the rounds Luis just didn't seem to hear the bell at all. They went at it like cats and dogs from the first round til the end. Medina was decked in the second round with a left hook to the jaw and took the mandatory eight count.

Benny cried to the referee about Molina's rabbit punching behind the ears but Molina just seemed to look the other way.

Because of the severe cut Medina's manager asked the fight to be stopped after the 8th round. Molina was ahead on all the officials' score cards.

Total gate was \$14,193.

U. C. C. SOFTBALL LEAGUE

We didn't do very well in the first half in softball this year. As a matter of fact we lost just about every game we played except the one with Los Toros.

San Joaquin won the first half of the league with five straight victories. Bob (Tubby) Garcia, their coach, knows too much ball, and looks like one too!

Our sponsor Jesse's Club told us if we didn't win the second half of the league he was going to clobber the whole team with the new bats he bought us. This is something else Jess said, "As for you two instigators (meaning Paul Chavez and myself) you see that championship trophy your team won last year? Well,

I'm going to beat your brains out both of you. That's all!"

A funny thing just about the same time we get to play San Joaquin I'll have my vacation coming and I'll be somewhere in Nogales or Mazatlan, Mexico. Que te vaya bien, Paul!

First game of the second half, Bachelors play Casa Mañana at Columbus Park.

WHO IS TAMPERING WITH THE SOUL OF MODERN AMERICA?

Phony Art, Suggestive Movies, Plays and Books

Jenkin Lloyd Jones, editor of the Tulsa (Okla.) Tribune analyzed the moral climate of America in a recent address to the American Society of Newspaper Editors. Here are a few excerpts from his speech:

ON EDUCATION

We are now at the end of the third decade of the national insanity known as "progressive education". This is the education where everybody passes, where the report cards are non-committal lest the failure be faced with the fact of his failure, where all move at a snail pace like a transatlantic convoy so that the slowest need not be left behind, and all proceed toward adulthood in the lockstep of "togetherness". With what results? At an age when European kids are studying the human capillary system and discussing the binomial theorem, our youngsters are raising polywogs on the classroom windowsill and pretending to keep store. This is what is known as "learning by doing". We have produced tens of thousands of high school graduates who move their lips when they read and cannot write a coherent paragraph.

ON ART

All he needs is pigment and press agent. He can stick bits of glass, old rags, and quids of used chewing tobacco on a board and he is a social critic. He can drive a car back and forth in pools of paint and Life magazine will write him up.

ON MORALS

The state will give a mother a bonus for illegitimate children. Nothing is your fault. And when the city fathers of Newburgh suggested that able bodied welfare clients might sweep the streets, the liberal editorialists arise as one man and denounce them for their medieval cruelty. I don't know how long America can stand this erosion of principle. But if we wish to survive maybe we had better do something about the elaborate pretense that there is no difference between the genuinely-unfortunate and the mobs of relievers who gather to throw bottles every time the cops try to make a legitimate arrest. The welfare state that taxes away the rewards for responsible behavior so that it can remove the age-old penalties for irresponsible behavior is building on a foundation of jelly.

ON MOVIES

Can anyone deny that movies are dirtier than ever? But they don't call it dirt. They call it "realism." Why do we let them fool us? Why do we nod owlishly when they tell us that filth is merely a daring art form. Isn't it plain that the financially harrassed movie industry is putting gobs of sex in the darkened drive-ins in an effort to lure curious teenagers away from their TV sets?

Bill Diehl, the righteously-angry entertainment editor of the St. Paul Dispatch, not long ago ran down the list of present and coming attractions as follows:

"Walk on the Wild Side" Set in a brothel.

"A View from the Bridge" Incest.

"The Mark" A strange young man trifles with little girls.

"The Children's Hour" Two school teachers suspected of being lesbians.

"All Fall Down" A psychopathic attacker of females.

"Cape Fear" A crazy rapist.

"Lolita" A middle-aged man's affair with a 12 year old.

"The Chapman Report" The adventures of a nymphomaniac.

Mr. Jenkin Lloyd Jones goes on and on and offers solutions but I think you get the general idea.

WHEN THE GONG STRIKES NINE, DAVE SIERRA TURNS INTO A WEREWOLF AND ITS SAN FELIPE ANNIVERSARY DANCE TIME

San Felipe is holding its Anniversary Dance at the Hawaiian Gardens Friday July 27th at Nine. Music by the incomparable Chico Ochoa Orchestra. Bids are \$4.00 per couple. No doubt you'll spot a werewolf looking thru the windows. It's Dave Sierra and he throws a tantrum every year at this time. He just can't see that many Del Rioans in one place.

"The San Felipe boys are fighting, fighting for us all, the San Felipe boys are fighting and we can't let them down, Rah! Rah! Rah!

Sometimes a couple after months like to after a good time in a state an overall business day, an overall about ten long a state day to after them. They are about that day will have to have a state, and just after all the activities problems are overall out, they the state will be overall.

There are several different kinds of love processes. It was first called a *private process*. The child's parent makes all the arrangements, pays for the child's care, and answers the child when he cries. Of course, both parents will usually be in on the activity.

When an agency places a child with foster parents, the foster family (known about two days before the child will require foster care, have no access to the child's file, or emergency placement). There will be no consent. There must be no family contact with the knowledge of which type of placement there will be, is a good subject of case. The children are made of the family (and) are placed of children can be made only with permission from the court. There parents will be kept informed as they say, can help protect the child's feelings (and that can be the exception).

③ *Source* takes great actions right out of a child. The agency has to be that the team when the child can take a good effect work.

When a couple apply for a license to marry, either one may specify otherwise that only one, either one, will stay a long time, or otherwise they will accept children for their future or emergency placement. They may decide that they could not handle a particular child or cope with its parents. Everything possible is done to ensure that both the future child and its future parents have a satisfying experience together.

Should spelling = all children learn from scratch. After 6 years children go from learn with help from parents to become fluent. But the focus of both cases needs fixing. (1) It is insufficient to compare it from some other mode.

C. S. O. ONLY CLUB IN SAN JOSE?

Concerning those articles written by Barnacle Betty of the local rag, it becomes very evident to me that the men who were interviewed, Herman Gallegos of the Fair Employment Practices Commission and Louis Zarate of the Santa Clara County Juvenile Probation Department, had but one thought in mind: Boost C. S. O. Mr. Gallegos was quoted as saying "Our problem isn't that we don't have enough organizations. We have too many."

How many organizations do you think would be about right, Herman? One? The C. S. O.?

Gallegos laments that most of our men and women belong to clubs which are primarily social. "They don't quite know where they stand between the older groups and the C. S. O. which is the only non-partisan civic group of the whole lot dedicated to integrating our people into the community", he was quoted as saying.

Yes, we do indeed know where we stand, Mr. Gallegos. Most of the younger men and women of this community are ashamed of the many "shady" dealings associated with organizations such as yours which happened many years ago. They've left a bitter taste in our mouth and we'd just as soon not have anything to do with your organization. It has been our wish to do things by ourselves. Examples: The United Food Drive, now in its 14th year and the United Club Council Athletic League, now in its 5th year. Someday we will have the civic unity and the sense of accomplishment we all seek. It takes years for people to forget things which happened in the past.

Speaking of scholarships, I would wager that the American GI Forum, in just three years of existence in this County, has sent more deserving young men and women to college than the C. S. O. has in the past TEN years!

Sr. Daniel Saldaña:

Thank you very much for your very enlightening letter in the last edition. You are 100% correct in every statement you made. I am personally to blame for everything that goes wrong in San Jose. No matter what happens, it's my fault. I wish to apologize to all the people from Del Rio who have been hurt by letters we printed and material which appeared in other pages in this magazine.

Someday I want to go down to the Lone Star state to see some friends in Laredo and I don't want any Del Rienses ambushing me at Paso del Aguila.

SAN FELIPE FORMAL DANCE ON JULY 27TH

The Club San Felipe Anniversary Dance, now considered the best Semi-Formal Dance sponsored by any of the local clubs, is on tap for Friday evening, July 27th. The scene will be the Terrace Room of the Hawaiian Gardens, Chico Ochoa's orchestra will make with the sounds, and tickets are only \$4.00 per couple. If you don't go and miss out on a helluva good time, don't say we didn't tell you!

Death is approaching !

We were asking EXCENTRICO publisher Humberto Garcia who this cute little girl was and he told us. She is Bonnie Lee Perez, daughter of Mr. and Mrs. Pete Perez of 3360 Madeline Drive, San Jose. Bonnie likes to play with stuffed toys like the one you see in the picture and her cute smile brightens the lives of those fortunate enough to know her. She is like millions of other happy youngsters in this world in every respect except two: She doesn't live at home with her mommy and daddy. She lives at the Santa Clara County Hospital. She isn't thinking of growing up to be a Miss Universe, an airline stewardess, or anything at all. Bonnie Lee Perez is going to die, a victim of Cancer, an incurable disease!

Bonnie has already had three operations and maybe there will be more in the future. Her father is an unemployed roofer. Stop, right now, and think about it. Can you help? Are you able to help? Are you willing to help? Surely there must be someone in this great big world of ours that will extend a helping hand to this innocent girl who has nothing but the stark reality of certain death ahead of her.

It is my firm conviction that all the social athletic and civic latin-american organizations can pool their efforts and raise some funds so that Bonnie can enjoy a trip to California Island, Disneyland or enjoy a few nice times before the inevitable end.

Personally I vouch for Club San Joaquin. How about it?
