

October 9, 1922.

Dear Miss Morgan :

This seems to be a very satisfactory arrangement for the top floor. (See No. 1 enclosed) *See "designs"*

2. I am returning the sketch for the proposed bathroom addition to House B. I do not think it looks badly. In fact, I think it looks well. The blank wall may need some relief, but that we can easily give.

You might want to carry the balcony in front of the bedroom, or do some such thing to relieve the spread of wall if you find it too great. It is not too disagreeable to me; in fact I think House B with the addition will be more in the style of House A.

3. I do not see that we can do anything with House C except divide the bathroom that we now have into two with showers instead of baths.

I do not like at all the lean-to roof that is shown in this drawing. It looks like a makeshift-- an after thought.

The other plan of extending the roof which comes along the middle of the tower would be better, but I think would look awkward unless we also extended the tower; and with the tower extended, it would be a bad and uninteresting shape-- would it not? Also it would be a lot of work, which does not seem necessary.

The extension on House B, however, could be done at comparatively small cost, I should think. Please do not attempt either of them just now. I am leaving for the West the latter part of this week, and expect to be out there a month or so. These changes could be made after I return here.

Sincerely yours,

W R Heart
