## MEMORANDUM

September 26, 1973

**To:** Mayor Tolmach

**From:** Administrative Assistant II

**SUBJECT:** Participation in New Horizons Business and Professional Women's Club Dinner Program

Your role in this evening's program will be to officially "welcome" Senator Dymally and other guests to the New Horizons Business and Professional Women's Club Dinner. Although most of those in attendance will be members of the host Club, there will also be guests from other organizations and other communities. I hope the attached notes will be of some assistance to you in preparing your remarks for this occasion.

Senator Dymally has apparently been invited to speak tonight because of his efforts in support of women's rights. In addition to providing leadership on the State Legislature's consideration of the "Equal Rights Amendment", he has sponsored or co-sponsored bills intended to end sex discrimination in such areas as community property, probate, and school athletic programs.
