

HEALTH SERVICE

The objective of the Student Health Service is to keep the student in a state of optimum health, both physically and mentally, so that he may realize to the fullest the opportunities afforded by Fresno State College. Health services are sponsored jointly by the college and the student body, the latter participating by means of a \$2 health fee each semester.

The Health Service is housed in its own building, with four well-equipped doctors' suites, physiotherapy, laboratory and X-ray facilities, nurses' treatment rooms, secretarial office, and waiting room. The hours the Health Service is open each school day, during which time registered nurses are on duty and physicians are available for consultation, are posted at the entrance to the building. Many medical specialties are represented among the part-time and full-time physicians, affording a high standard of medical care.

During hours when the Health Service is closed, a qualified student may contact his own physician, in which case the Health Service will allow \$5 toward the cost of one office visit or \$10 toward the cost of one residence visit for any one illness. Should hospitalization for a qualified student be necessary, the Health Service will allow \$10 per day for five days toward the cost of hospitalization which is not otherwise covered by insurance. In addition, an excellent student sickness and accident insurance policy is offered through the Health Service.

PLACEMENT SERVICE

The college maintains a centralized placement service which is closely integrated with the total educational process of the college, operates in cooperation with the various departments of the college, and is part of the student personnel program. Its services include educational placement, business and industrial placement, and student placement.

The placement service seeks more efficient utilization of college manpower by assisting students of the college and alumni in seeking positions which will best utilize their education, training, experience, and abilities and by aiding them in their progress toward positions of greater responsibility and personal satisfaction. It not only serves the needs of the college and its students but is vitally concerned with and directs its service toward the needs of the community, business and industry, the public school system, and to the State generally.

The specific functions of the office are to collect and make available to prospective employers personal data and confidential letters of reference of candidates; maintain a current record of employment opportunities; recommend candidates for positions at the request of employers; arrange for interviews between candidates and employers; provide guidance to candidates seeking positions; bring the needs of the employer to those who design and implement the training program; and conduct a follow-up program of candidates placed in positions.

There is no charge to students or employers for the placement service. Within the limitations of time and staff, an effort is made to assist those who seek the service; however, placement cannot be guaranteed. The college reserves the right to recommend for placement only those applicants who are adequately qualified for positions they seek.

Educational Placement

Membership in the Office of Placement is open (1) to anyone who holds or will receive a regular teaching credential in the semester prior to date of employment provided a minimum of 12 semester units of work has been completed at Fresno State College; (2) to anyone who holds or will receive a master's degree in the semester prior to date of employment provided a minimum of 12 semester units has been completed at Fresno State College; and, (3) to students who have met the Fresno State College conditions for partial fulfillment of requirements for elementary teaching under the new credential law, including student teaching.
