## AT&T Tree Cell Tower Project work begins on campus

Construction began today (July 1) on the AT&T Tree Cell Tower Project at Fresno State, which will result in a 70-foot artificial tree cell tower designed to blend in with the campus environment and improve AT&T's cell coverage service on campus. The project is scheduled for completion by October and will include construction of a 10'x12' building to store equipment upgrades. Construction fencing surrounds the perimeter of the site, located west of the Residence Dining Hall (Cedar and Scott Ave.) at the Old Pump House.
