Mr. James A. Murray,
New York American,
New York, N.Y.

Dear Mr. Murray:

Thank you for the "key" photograph
just received--also for the key itself.

From your description of the mark-
ing on boxes, etc., our troubles in locating
articles of a set are at an end.

A distinctive mark like the arrow
or circle common to all boxes of a given car
would help greatly in future locating, as we
have now in some cases a dozen sets or more
of identically numbered boxes. It would also
help greatly if the identifying mark could
be on two or more faces of the box, particu-
larly of heavy ones, as otherwise the number
is sure to be on the hidden or downward side
of the box.

Yours very truly,

JM-deM
