

NEWSMAGAZINE FOR ALUMNI AND FRIENDS OF CAL STATE HAYWARD

HAYWIRE

**Howard High and Hank Salvo
2002 Alumni of the Year**

Winter 2003

Message from the President

Here's to the year past and the year before us

Sunjay Nair

I hope all of you had a happy and safe holiday season.

We have concluded another fantastic quarter. With your help California's voters passed Proposition 47, which will bring much needed capital to the university. I would like to extend my thanks to the university offices responsible for government affairs and communication. They got out the word about this very important bond measure.

With university enrollment increasing and state funding decreasing, Cal State Hayward will need every dollar to serve our current and future students. It is important to ensure these students have the same high-quality education afforded to previous generations. Proposition 47 will help address some of this burden by allowing the university to fund a number of capital projects on campus, including the new Business and Technology Center.

We celebrated this victory at the November Awards Gala, at which we honored our two Alumni of the Year and our Teacher of the Year, who are profiled in this issue. Alumna Jodi Servatius was given a special service award. These individuals represent the very best this university has produced and serve as role models for us all. Once again I would like to congratulate Hank Salvo, Howard High, Susan Hawkins Gordon, and Jodi Servatius for their contributions to our community.

I would also like all of you to think about an alumnus who has made a difference in your community or at your local school, someone you think is deserving of

recognition next year as Alumnus of the Year or Alumnus Teacher of the Year. Please call, write or e-mail us to tell us of those you feel are deserving of these honors. Special people deserve special recognition, and we need your help to find them.

Despite our many successes, we never stop. The Alumni Association already has been working with the university on winter quarter events. Each year we support the Homecoming games, this year on Friday, Jan. 24, as well as the Music Department's annual fund-raiser, a Night of Jazz at Yoshi's, in Jack London Square on Monday, Feb. 3. These are wonderful annual events that deserve alumni participation.

Unfortunately, this year I am unable to attend because of the situations currently facing our country. I was recently recalled to active duty in the United States Navy and will be out of the area for at least a year. I was going to resign as president of the Alumni Association, but after many conversations with staff and members of the board of directors, I have decided to complete my term. With telephones, faxes and e-mails, I should be able to continue to represent you effectively. In my absence, Monica Pacheco, your vice-president, will ably fill in for me, as needed.

Here's to another great year for the Association. With your help and continued support, I am certain it will be.

Sunjay K. Nair
President, CSUH Alumni Association

CSUH Leadership Fund will support students and programs

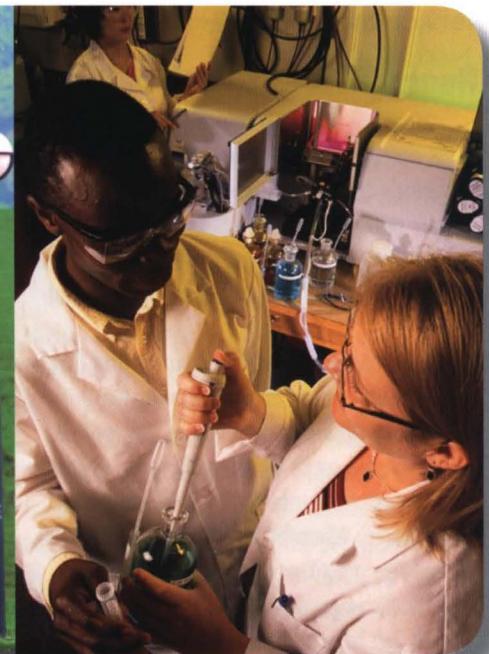

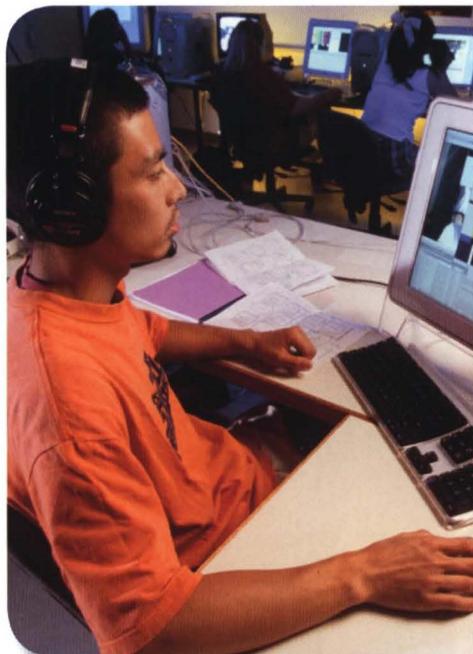

By Barry Zepel, University Advancement

Deserving students and university programs at California State University, Hayward will get a boost from the newly established Cal State Hayward Leadership Fund, launched by President Norma Rees at CSUH's annual Awards Gala in November.

"The Leadership Fund will provide an opportunity for supporters to give unrestricted gifts to the university and to direct them to programs of their choosing," Rees said at the Gala, which honored

President Rees, should the donor designate the gift "where it is needed most." University leaders will use funds for numerous purposes, including scholarships, faculty and graduate-level research initiatives, visiting scholars and lecturers, and extracurricular activities.

"A Cal State Hayward education is significantly enhanced when students have access to a full range of academic enrichment

outstanding alumni and faculty.

"Cal State Hayward Leadership Fund" is the name that will be used to describe all unrestricted funds that support schools, departments, and programs throughout the university. It will provide resources that will allow all CSUH deans, department chairs, program directors and the president to meet the most pressing needs and capitalize on opportunities as they arise.

Those who make unrestricted gifts of \$1,000 or more annually to the Leadership Fund will become members of the Albert R. Lepore Society. The society is named for Lepore, a founding member of the Cal State Hayward faculty who served as its first dean of instruction and first provost.

"Dr. Lepore provided exceptional leadership and had an important influence on the educational direction of this institution," said Robert Burt, CSUH vice president for University Advancement, "and we wish to honor his legacy by naming this society for him."

Gifts to the Cal State Hayward Leadership Fund will be used in the academic area or program that the donor designates, or by

resources and activities," said Burt. "The Leadership Fund has been created to address this need. Student fees and government funding provide only the basics and very little discretionary funding for our schools, departments, or campus-wide resources, such as our library."

"Unrestricted gifts are very meaningful because they represent an endorsement of campus leaders and the way in which they are directing Cal State Hayward," he said. "Because of the special relationship their Leadership Fund gifts will create, we intend to provide donors with opportunities to meet with campus leaders to understand how their gifts have been used to maintain Cal State Hayward's excellence and to support its strategic initiatives."

Contributions and pledges may be sent to the Cal State Hayward Leadership Fund, c/o Office of University Advancement, 25800 Carlos Bee Blvd., Hayward, 94542. Please make checks payable to the Cal State Hayward Educational Foundation. For more information call (510) 885-2150.

An envelope to facilitate contributions to The Leadership Fund has been included in this issue of *Haywire*.

CAL STATE HAYWARD 2002 Alumni of the Year

Two exceptional graduates of California State University, Hayward are the 2002 Alumni of the Year. Hank Salvo (MBA '72) and Howard High (B.A., Mass Communication '76) have been honored for their personal and professional accomplishments and for their continuing service to Cal State Hayward.

Henry J. "Hank" Salvo, Jr.

Henry J. "Hank" Salvo is a man who sets goals and gets things done. He finished his bachelor's degree in finance at UC Berkeley in four years, completed his training in the Army Reserve, then earned his MBA at Cal State Hayward in just a year and one-half, graduating in 1972.

When Salvo heard the business and financial division of the Clorox Company was hiring graduates with advanced degrees, he applied, got a job, and spent the next 28 years advancing through the ranks of the Oakland-based corporation. When he left Clorox in July 2000, he was vice president and treasurer of the \$4 billion company.

He left to achieve another of his goals. He wanted to be a corporate chief financial officer and executive vice president, the positions he now holds at the Robert Mondavi Corporation in the Napa Valley.

His Goal for Cal State Hayward

Currently Salvo is devoting time to something else he is committed to accomplishing. He serves as chairman of the fund-raising campaign for the new Business and Technology Center at Cal State Hayward.

"This project makes a statement about the university," Salvo said. "It says that we have arrived, and that Cal State Hayward is worth investing in."

"It also says that we at Cal State Hayward can do something on our own. We are demonstrating that we are established and that the community will put up the money because it believes this university is worth the investment."

The Alum of the Year consistently has

demonstrated support of the university by serving three terms — more than eight years — on the board of directors of the Cal State Hayward Educational Foundation.

"Hank's financial expertise been a great resource to the Educational Foundation during his terms on the board," said Robert Burt, CSUH vice president for University Advancement. "But, most especially, we are deeply appreciative of his leadership in fund raising as chair of the Business and Technology Center Campaign. It's always gratifying when a graduate not only retains ties to his alma mater but also becomes actively involved in strengthening the institution. Hank's leadership as both a donor and a volunteer make him a model alum."

Along with his work on behalf of Cal State Hayward, Salvo serves as a trustee of the California College of Arts and Crafts in Oakland.

A Family Man

Hank and Nancy Salvo will have been married 26 years in April.

"I had to ask permission to marry her back in the 1970s," he said, explaining he was not referring to asking her family to approve the marriage.

"I met Nancy at Clorox, and in that era it wasn't considered kosher to marry someone from work," he said.

So Hank told his supervisor that one of them would resign if necessary but that they wanted to wed.

"Fortunately, he said we could both stay," Salvo recalled.

The couple has two sons, Andy, 24, and John, 21. The Salvos live in Diablo.

Hank Salvo, Jr.

Howard High

College is supposed to set a course for the future, but seldom does it precipitate life changes like those experienced by Howard High during his four years at Cal State Hayward.

When he entered college in 1972, High planned to become a veterinarian. When he graduated in 1976, he had a bachelor of arts in mass communication, a discipline that helped prepare him for a top management position with Intel Corporation, the world's largest semiconductor company.

Currently the Cal State Hayward alumnus

Howard High

is manager of strategic communications and of the Technology Press Relations Group for Intel, the world's largest maker of silicon chips.

A self-described Air Force "military brat," during his childhood High moved frequently with his family, which included his parents, an older brother and two sisters. (Both sisters would later earn B.S. degrees in Business Administration from Cal State Hayward. Susan High Ferreira graduated in 1992 and Peggy High in 1979.)

"From our frequent moves, I learned the

difference between a house and a home," he recalled. "Your home isn't the physical structure, but a state of mind. It is family, friends and the experiences you have together that give you your sense of belonging, your sense of home."

During his college years, he said he was able to develop longer-lasting friendships and a sense of community.

It was through a college friend he met Carin Akagi (B.S., Biology '76; M.S., Environmental Biology '84) his future wife. They attended Cal State Hayward at the same time but did not date until several years after college.

"We think we were in the same biology lecture class our freshman year," High joked, "but I think we didn't meet because while she was sitting up front taking notes, I was in the back of the lecture hall trying to stay awake."

During college High developed friendships with several Cal State students from the Japanese-American community in San Lorenzo. Through them he became aware of his ethnic background and the culture of his mother's homeland. High believes these relationships during his college years helped him crystallize the characteristics from his American and Japanese heritages and learn how to combine them in his personality.

Choosing a College

A good student during high school, High had his choice of colleges. He decided on Cal State Hayward because it was affordable and because an associate dean gave him a campus tour tailored to his academic interests.

"When I visited other colleges, I was just shuffled around," he said, "but Cal State Hayward made me feel welcome."

As a freshman, High became a photographer for *The Pioneer*, the school newspaper. This enabled him to pursue his hobby while enjoying free film and darkroom use.

"After my first year, I realized my grades weren't going to get me into veterinary school," he said. "I'd won some photojournalism awards for my work on the newspaper, so I decided to major in mass communication."

In this major High learned the techniques used in print, radio and television communication.

For a television course his senior year, he worked with a friend to create an employee training video for Mervyns. This evolved into a job in Mervyn's training department and ultimately to a full-time position with Liberty

House, another retailer, where he produced a training video and employee magazine and helped direct photo shoots for its advertising.

"After four years with Liberty House, I felt I'd done everything I could in communications there, so I looked around for a job in Silicon Valley," High said.

Friends told him of an opening at Intel.

There he "worked with the late Robert Noyce, Gordon Moore, Andy Grove and Craig Barrett, some of the greatest leaders in the history of American industry," according to High. "They were great individuals who built a company that has literally changed the world for the better."

High now oversees all of Intel's press relations and news coverage of the products and technologies Intel's business units produce and coverage of the company's research and development labs and manufacturing facilities.

In 1998 *Upside Magazine* named him one of the 100 Most Influential People of the Digital World.

On Giving Back

"I guess to paraphrase that old Saturday Night Live routine, I would have to say Cal State Hayward 'has been very, very good to me,'" High said.

In appreciation, he serves as chairman of the board of directors of the Cal State Hayward Educational Foundation. He also is working with other members of the board and the university community to raise funds for the new Business and Technology Center on the Hayward campus.

"Technology crosses all academic disciplines, so all our students will benefit from this new facility," High said.

He sees construction of the first new academic building on the Hayward campus in 30 years as a beginning, not an end point.

"The new Business and Technology Center will help our future students be competitive. I think it is critically important that Cal State Hayward students have access to the tools that allow them to develop their talents and compete with the best in the world," High said. "If we can give our students the opportunity to be competitive, their creativity and drive will make them successful."

"The goal is not to be on the outside looking in, but to be at the center of the action. I believe Cal State Hayward allowed me to do so, and I hope we can pass that opportunity along to future generations."

Faculty Award Presented to Judy Stanley

Judy Stanley is the first recipient of the newly created Sue Schaefer Faculty Service Award, established to honor faculty who have provided exceptional support and service to the university in addition to their distinguished academic careers.

The award, presented by the Faculty Senate, was named for Schaefer, a longtime professor of management and finance. Professor Russell Merris (Math and Computer Science) provided the founding endowment for the award. Other faculty members made additional contributions to the fund.

Academic Senate Chair Don Wort described Stanley's service, which included participating on more than 40 faculty committees and serving as chair of the History Department and chair of Academic Senate for three terms.

From left, Sue Schaefer, Academic Senate Chair Don Wort, Judy Stanley and Dee Andrews celebrated the presentation to Stanley of the first Sue Schaefer Faculty Service Award.

Voters Approve Proposition 47

Passage of Proposition 47 on the statewide ballot Nov. 5 pushes the campaign to construct a Business and Technology Center on the California State University, Hayward campus near the finish line, according to university President Norma S. Rees.

"This vote shows tremendous confidence by the voters and a determination to invest in our educational system even when California is not in the best economic condition," said Rees.

"This is fantastic news," said Hank Salvo, who chairs the university's fund-raising effort. "The 'yes' vote means we are well on our way to successfully completing this campaign next year."

Salvo said the \$11.5 million made available to Cal State Hayward by the bond issue will be added to the nearly \$7 million already raised from private sources. Another \$2 million will come from campus resources. Projected cost of the Business and Technology Center is \$23.5 million, with groundbreaking scheduled in 2004.

"This victory gives us the keystone funding for the project," Salvo said. "It prepares us for the final \$3 million fund-raising push that we expect will include some major gifts"

Salvo noted that in addition to major gifts already collected, the alumni, friends and employees of the university have purchased more than 600 inscribed bricks that will become part of a memorial wall in the new building.

Alumna Sworn in as Chief of Police

Janeith Glenn-Davis, formerly a lieutenant in charge of investigations for the Oakland Police Department, was sworn in Oct. 17 as chief of police and director of public safety at California State University, Hayward.

Janeith Glenn-Davis

A 1984 Cal State Hayward graduate (B.A., Criminal Justice) Glenn-Davis has more than 17 years of law enforcement experience, including service in the Oakland Police as an acting captain and area commander of field operations, police service area commander, patrol watch commander, patrol district supervisor, recruiting officer and patrol officer.

The university's new public safety chief is one of a very few women to achieve executive rank in the 800-member Oakland Police Department. She was the highest-ranking female officer and only female commander when she left the Oakland force.

"Ms. Glenn-Davis has a national reputation for professional excellence and fairness," said Norma S. Rees, CSUH president. "It is a pleasure to welcome one of our alumni back to campus to handle this very important leadership role."

Glenn-Davis is pleased to be returning to her alma mater.

"It's a great opportunity for me," she said. "It is an advantage for me, as an alumna, to know Cal State Hayward and be familiar with campus life."

Glenn-Davis and her husband, Oakland Police Captain Ron Davis, reside in Hayward. They have two daughters, ages 8 months and 13 years, and a 5-year old son.

Pillar of the Profession

Hal Gin (B.A., Sociology '73, MPA '77) was honored with the "Pillar of the Profession" award at the 2002 conference of the National Association of Student Personnel Administrators in Boston. Gin, executive director of Student Development Services and director of Judicial Services at Cal State Hayward, was recognized for the influence he has had on others in the student services profession. In making the award, the national association cited his active participation in the organization, including service on its national board, and his community involvement.

Spagle Named Coach of the Year: Two Pioneers Earn All-America Honors

Jim Spagle, California State University, Hayward women's volleyball coach, was named 2002 NCAA Division III West Region Coach of the Year by the American Volleyball Coaches Association (AVCA).

Spagle, in his seventh season as Pioneers coach, guided the team to its first ever West Regional championship, posting a school record 32-2. The team lost only one match during the regular season and won three playoff matches before losing in the NCAA quarter-final match. During its 21-match win streak, Cal State Hayward was ranked No. 1 nationally in Division III.

Seniors Ivone Aleman and Angela Herrera were named to the American Volleyball Coaches Association All-America teams for NCAA Division III. The American Volleyball Coaches Association also selected Aleman, Herrera and Elizabeth Hazell, a junior, to the NCAA Division III All-West Region Women's Volleyball Team.

Concert, Reception Honor Nathan Rubin

Music patrons filled the University Theatre in December to enjoy the Symphony Orchestra Concert, featuring Professor Emeritus Nathan Rubin. Following the concert, guests attended a reception in the Studio Theatre, sponsored by the Music Department and Friends of the Arts, recognizing Rubin for his 25-year career on the Cal State Hayward faculty.

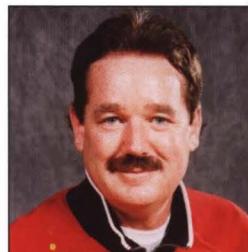

Rubin, a renowned violinist and Bay Area music pioneer, is a classical musician who once toured with the Van Morrison rock band. He also developed the popular "History of Rock and Roll" course at Cal State Hayward.

Faculty members Philip Santos (violin) and Betsy London (viola) joined Rubin and the CSUH student musicians in performances of Bach's Concerto for Two Violins and Brandenburg Concerto No. 6.

Timothy Smith, chair of the Music Department, described the evening as "a true passing of the baton."

Alumna Heidi Dahms, orchestra director at Castro Valley High, presented Rubin with something to toast his retirement. In a moving tribute to her former teacher, Dahms described the impact of Rubin's instruction, guidance and encouragement on her life.

Jim Spagle

Professor Emeritus Nathan Rubin performed a farewell concert with the university's Symphony Orchestra.

News from the California State Universities

California State University, Hayward is one of the 23 campuses that constitute the largest university system in the world. More than 400,000 students are enrolled statewide in the CSU system. This summary provides news of the CSU system and its other campuses.

CSU — The California State University announced it set an enrollment record this fall with more than 406,000 students on its 23 campuses. In reaching this milestone, the CSU remains the largest university system in the country in terms of student population. The head count for the opening day of the fall 2002 term totaled 406,896 students, a nearly 5 percent increase over fall 2001. The CSU is serving its bulging student population by maximizing use of its facilities, relying more on nontraditional and technology-based course formats, and offering more evening, weekend and summer sessions.

CSU, Dominguez Hills — The International Association of Athletics Federations, the top governing body for track and field, has announced that its 2006 World Cup competition will be held at CSU Dominguez Hills. This will mark the first time the meet has been held in the United States. The event will take place at the CSU, Dominguez Hills sports complex, the Home Depot National Training Center, which is due to be completed by June 2003.

CSU, Sonoma — A conservation-minded remodeling project has transformed a Sonoma State academic facility into one of the most energy-efficient public buildings in northern California. Using a unique system of low-energy cooling, lighting control, high-efficiency glazing and photo-voltaics, Ruben Salazar Hall is expected to consume 42 percent less energy than the maximum allowable under state building standards, or enough energy to power 80 homes. The project has sparked the interest of the Lawrence Livermore National Laboratory, which will spend a year studying the building's energy usage. (See: www.sonoma.edu/pubs/release/2002/275.html)

CSU, San Diego — In an effort to bridge the information gap between Spanish-speaking Latino parents and the higher education community, CSU, San Diego has created a Spanish language Web site for university admissions, the first of its kind among California universities. The university designed the site to help more Latino students prepare successfully for college. The Web site (www.sdsu.edu/espanol) provides information on high school core courses, eligibility requirements, parent and student orientation events, applications and financial aid.

CSU, Fresno — The federal government has provided \$2 million in seed money to establish an International Center for Water Technology at Cal State Fresno. The center will conduct research on water issues and "increase awareness of the limited supply, high demand and contamination of water worldwide," according to Mike Ortiz, university provost and vice president for academic affairs. Community leaders and university officials have raised more than \$1.2 million and hope to raise \$60 million for the project. The goal is to make the university's Center for Irrigation Technology into an institute with a global focus on water use, conservation, technology and policy research and development.

CAL STATE HAYWARD

Awards Gala

Alumni, friends and members of the California State University, Hayward community celebrated the contributions of five honorees at the Annual Awards Gala, at the Blackhawk Museum in Danville on Nov. 1. Also recognized were members of the President's Trust Group and Heritage Society members, who have included the university in their estate planning. The elegant evening was co-sponsored by the CSUH Alumni Association and the Office of University Advancement.

Alumni Association News

Click, click! Alumni have new and upgraded on-line tools

By Thomas R. Hoeber, Director of Alumni Relations

Thomas Hoeber

Not surprisingly, my heart is in print journalism. After all, I spent 27 years in the magazine publishing business with *California Journal*. My preferred way to absorb information is through words and images on paper.

However, in this day and age of high-speed communication and computer-on-every-desk technology, the Cal State Hayward Alumni Association needs to offer a wide

range of media that appeal to our alumni in whatever way they prefer. Therefore, while the *Haywire* will continue to grow and improve, we are adding other ways to stay connected. We recently have added a new communication tool and have substantially upgraded our Web site.

The new outlet is *hayward alumni e-news*, a monthly newsletter we send to interested alumni with a screenfull of brief items about events and other alumni along with links to additional information sources. Recipients have reported they are very pleased with the first issues.

If you'd like to be added to the list for a tryout, give me a call, e-mail me or go to our Web site and sign up. This e-news is free, and there is a

convenient "unsubscribe" link if you decide not to continue receiving it.

This segues perfectly into the upgraded Alumni Association Web site at www.csuhalumni.org. There you now will find detailed information on

- The many benefits of membership;
- Beautiful albums of photographs of various events such as the Alumni Awards Gala at the Blackhawk Museum;
- Back issues of the *Haywire*; and
- Online membership and event sign-up opportunities. You can even renew your membership online.

There is also a page of volunteer opportunities that will enable you to get involved in alumni events, join a board committee or volunteer to be a career mentor.

We encourage you to call, write or click, and "Keep the Link" with Cal State Hayward and its network of alumni.

Tom Hoeber

Pioneer Paths

Susan (Hawkins) Gordon Named Outstanding Alumni Teacher

Gordon

After 32 years in education, **Susan (Hawkins) Gordon** remains as enthused about her career choice as she was during her first years of teaching.

Gordon, the university's 2002 Outstanding Alumni Teacher, has shared her talent and enthusiasm with thousands of students over the past three decades as she developed an extraordinary dance program at Monte Vista High School in Danville.

Gordon (B.A., Physical Education '68, secondary credential '70) has taught at Monte Vista since earning her credential at Cal State Hayward.

"That first year there were so many students who wanted and needed this program, I volunteered to teach six classes instead of the five I was assigned," Gordon recalled. "We did our first production that year in May with 300 students dancing in white T-shirts and blue jeans."

Her student productions have come a long way since then. They now include flashy costumes, sophisticated choreography and other refinements that draw audience from throughout the region.

At the Cal State Hayward Gala, Gordon expressed her gratitude to Cal State Hayward and the faculty who helped her find success. A drama major initially, she changed her major physical education with a specialization in dance.

"At the time physical education was a really difficult program filled with pre-med students who were competing to earn grades for admission to grad school," she said. "The department was also going through the process of earning its first accreditation. The faculty wanted it to be a rigorous course of study."

In retrospect she realizes she took too many units as a freshman. Her grades suffered. At the end of her first year she found herself facing dismissal.

She had been cast in a leading role in the summer play, and her drama teacher asked that she be given another chance. He knew an "A" in the sum-

mer production class would boost her grade point average substantially. She got a reprieve, and it proved to be the break Gordon needed. Her grades improved, and she earned her degree, then a teaching credential.

In her role as a teacher, Gordon has become familiar with learning disabilities and now realizes she likely had these kinds of challenges to overcome as a student.

"I remember my Cal State Hayward history teacher saying, 'You do so well in classroom discussions and really seem to understand the subject. I just don't understand why you don't do well on the exams.'

"I just was never a good test-taker," she said, adding she likely would have done much better had she been given extra time to respond or the opportunity to answer aloud.

Her dance classes were never a problem, however, and during her senior year Gordon found herself substitute teaching for Gay Cheney, her Cal State Hayward dance instructor, whenever the teacher was away.

During her student teaching at Hayward High School, her master teacher taught Gordon how to stage student dance productions, and the young Cal State Hayward graduate was ready to take on her career position at Monte Vista.

"I've been in the same dance room for 32 years, but each year it's different," she said. "The instruction changes because dance is not a stagnant program by its very nature."

One thing she finds especially gratifying is having former students — some now in their late 40s or early 50s — return to see her current productions. Gordon said sometimes those from the first dance classes lament that their performances lacked the costumes and polish of the new shows.

Gordon said she just tells them that those first classes laid the foundation for the current students. She says she thinks both the productions and the teacher have gotten better over the years.

1960s

Frederick "Rick" Shaw, B.S., Education ('61) was the first international student to graduate from Cal State Hayward, then known as State College of Alameda County. The native of Ireland has a doctoral degree in public health and has been active in health programs in developing countries almost continuously since 1968. A life member of the Alumni Association, he recently returned from Pakistan, where he was a member of the Pakistani Presidents' Task Force on Human Development, working to solve problems in health, education and poverty.

Shaw

1970s

Timothy Donnelly, B.S. Chemistry ('70), M.S. Chemistry ('75) is a chemistry professor at UC Davis and recipient of the university's Award for Excellence

Donnelly

in Teaching. An avid skier, Donnelly formulated an all-condition ski wax now being marketed as "Super Hot Sauce." Used by many Olympic medal winners, the wax reacts to changing snow conditions. It is designed for durability, flexibility and extreme slipperiness. Donnelly is also the president of TiDon Research Institute, a chemical consultant group in Vacaville.

Tom King, B.A., Social Science ('71) retired in 2000 as a sergeant after 28 years with the Alameda County Sheriffs Department. Since his retirement, King has been working as a criminal investigator, assigned to welfare fraud, for the Santa Clara County district attorney. He and his wife of 32 years, Shirley, reside in Fremont. They have two daughters, Kelly and Christine, who are both pursuing bachelor's degrees.

King

David Neft, B.A., Music ('71) is a pianist who has donated his time and talent to many organizations and fund-raisers in Lake County. After graduation he toured for four years with Syndicate of Sound, a pop group. He was an original member of the rhythm and blues band Blue Haze, which opened for B.B. King and The Temptations. He arranged much of the music and vocals for Blue Haze and also arranged music and co-wrote some of the tunes for the children's musical "Story of Orange." In 1976 Neft became a licensed broker and owner/operator of Neft and Neft Realtors, established in Middletown by his parents in 1966. He and his wife, Ellen, have three children.

Neft

Jacob Blea III, B.A., English, Secondary Teaching Credential ('75) recently was named supervising judge of Superior Court in Pleasanton, where he also is the presiding judge of family law.

He is an instructor in the paralegal program at CSUH. After earning his bachelor's degree, Blea attended law school at UC Berkeley's Boalt Hall. He practiced law for 16 years before being appointed by Governor Pete Wilson as a Superior Court judge for Alameda County in 1997. He and his wife, Cheryl, reside in Livermore.

Blea

Carl Gagnon, Social Psychology ('75) has composed and produced "Red, White & Blue... These Colors Don't Run," dedicated to the nation's firefighters and peacekeepers following the Sept. 11 terrorist attacks. All proceeds from sales of the 1,000 compact disc singles will benefit the Alisa Ann Ruch Burn Foundation. For the last 18 years Gagnon has worked for Carl Zeiss Meditec, where he is technical support manager. He and his wife, Sandy, live in Livermore.

Deb Atwood, B.A., English Literature ('76) began a career writing fiction in 1996 after working 20 years in social services and retail. After a year of night classes, Atwood studied under writer Sara McAulay. She earned a first place award in the Robert V. Williams Memorial Contest for her short fiction "First Day of School." She received honorable mention from Writers Digest for "The Gift." Atwood has had several stories published in *Tattoo Highway*, a journal of prose, poetry and art published by the CSUH English Department.

1980s

Tessie Guillermo, B.S. Economics ('80) was appointed by Gov. Gray Davis to the board of the Health Professions Education Foundation. Guillermo has been a health advocate for the Asian American and Pacific Islander communities for more than 20 years. She is the president and CEO of the Community Technology Foundation of California and one of the founders and a past CEO of the Asian American and Pacific Islander American Health Forum, a national health advocacy organization based in San Francisco. Guillermo, who has written on health policy issues, resides in San Francisco. She and her husband, Reggie Regino, have two daughters and one son.

Guillermo

Susan Park, B.A., History ('83) has worked in human resources and personnel management for over 30 years and currently is human resources manager for Varco Pruden Buildings Inc. in Turlock. She and her husband, Michael, moved from the Bay Area to Modesto in 1986 when she

joined the company. She supervises staff and oversees labor relations, benefits, safety management and employee training. She recently volunteered to be in charge of the ISO 9000 quality program. Park has served as president of Habitat for Humanity, Stanislaus. She currently is reconnecting with anti-war networks.

Park

Dan Hurd, B.A. Theater ('84) is call center manager for "Give Something Back," an independent office supply company in Oakland that donates 50 percent of its yearly profits to non-profit organizations. Hurd supervises 17 employees and oversees customer service. Previously he was the sales director of United Textile in San Lorenzo. He and his wife, Patti, have three children and live in Hayward.

Hurd

Thomas Peacock, MPA ('84) has just published his first book, *Is it Safe to Eat Out?* It is available from all major book sellers. Peacock is a resident of Newark and a lieutenant colonel in the U.S. Army Reserve. He has worked with Alameda County Environmental Health Services for 22 years.

Peacock

Kathy Haug, B.A., English Literature ('88), earned her master's degree in library science from UC Berkeley in 1989, then became a children's librarian for the Richmond Public Library. Since 1997 she has been the administrative librarian in charge of Children's and Extension Services. She currently is president of the Association of Children's Librarians of Northern California.

Haug

James McGee, B.S. Physical Education ('88) has taught in the Newark Unified School District for 14 years. He taught elementary school P.E. for three years then earned a multiple-subject credential. Since 1992 he has taught grades five and six. He coached high school football in Newark for eight years. In 1989 started a running club that now has nearly 200 members. He also taught adult night school for 12 years. In 1995 he was selected as one of Mason-McDuffie's "Outstanding Educators" of the Bay Area. He and his wife, Kristina, reside in Fremont.

McGee

1990s

Melissa Wong, B.S. Business Administration, accounting option ('90) works for the Department of Health and Human Services,

Centers for Medicare and Medicaid Services, which is responsible for the federal administration of Medicare, Medicaid and the State Children's Health Insurance Program. As manager of financial services for the San Francisco regional office, Wong oversees a large staff of accountants and the medical contractor.

Wong

"Ida" Marie Pera, B.A., Art/Liberal Studies ('91) teaches fourth grade at Yokayo Elementary School in Ukiah. In 1999 Pera was the art mentor for the Ukiah Unified School District, providing art units in classrooms for several schools. She has been a county coordinator for the Redwood Arts Project, which is part of the California Art Project. Currently, she is the chair of the PTA Reflections Contest. She and her husband, Don, reside in Mendocino County, where they grow Zinfandel and Carrinian grapes. They call their vineyard home "PeraDice."

Pera

Teresa (Collins) Mason, B.A., Business Administration, accounting option ('92) is president of the San Francisco Chapter of the California Society of Certified Public Accountants for 2002-03. Previously Mason was first vice president and chaired the chapter's careers and accounting committees. A partner in the firm of Collins and Mason, CPAs, she specializes in taxation and management consulting for individuals and closely held businesses. She currently is pursuing a master's in taxation.

Mason

Coleen Swihart, B.S.

Biological Sciences ('93) was named Oregon's 2001 Teacher of the Year by the National Association of Biology Teachers. Swihart teaches biology, advanced genetics and advanced ecology at Canby High School, where she has worked since 1995. She often takes her students into Oregon's natural landscapes to explore how science is relevant to their lives. Swihart married her husband, Tim, in 1991, and they have two sons, Brian and Cyrus. The couple met at CSUH.

Swihart

Ayanna Busby, B.S. Business Administration ('95) has been employed with Centers for Medicare and Medicaid Services in San Francisco for the past five years. As a managed care specialist, she is responsible for auditing, regulating health care plans and recruiting new staff. She is currently pursuing a master's degree in health care administration at Cal State Hayward.

Busby

Lisa Fuller, B.A., History ('95) moved to Georgia after graduation and earned a master's degree in history at the University of Georgia. She moved back to California, developed an interest in human resources and enrolled in a human resources certificate program at CSUH. Fuller currently is a human resources assistant at S.T.A.R.S. Adolescent Center, a behavioral health group in San Leandro.

Fuller

Stephen Gilbert, M.S., Educational Leadership ('95) has been an elementary school principal for the Gilroy Unified School District since 1997, recently transferring from Las Animas to Rucker Elementary School. After 15 years in sales, Gilbert found a passion for teaching. He has taught at Gavilan Community College as well as in elementary school. He currently serves as secretary of the California Association of Year Round Education and has served on many boards and committees. He and Nancy, his wife of 28 years, live in Milpitas. Their daughter Beckie attends CSU Sonoma.

Gilbert

Rhonda Silva, B.A., Mass Communication ('96) is founder and CEO of Blue Skies Marketing and Public Relations Staffing Solutions, which provides marketing, media and public relations consultants. The company, founded in 1997, is located in Lafayette. Silva previously was a principle with Optimum Communications and served as an account executive for PR Newswire Association in San Francisco. She serves on the board of the Public Relations Society of America and is vice president of its communications committee. She enjoys photography and traveling with her husband of 15 years, George "Biff" Silva. They reside in Oakland.

Silva

Jeffrey Johnson, B.A., Music, ('99) Teaching Credential ('00) is the new director of the Symphony of the Sierra. The director position includes part-time teaching, and symphony musicians receive college course credit. Johnson earned a master's degree in music education from the University of Nebraska in 2001. He and his family recently relocated to the Columbia area, where he also teaches at Columbia Elementary School as a music instructor for grades K through 8.

Johnson

2000s

Eric Skivers, B.S. Criminal Justice ('00) is a deputy probation officer of the San Mateo County Probation Office. After earning his degree, Skivers interned for Alameda County then accepted a full-time position in San Mateo County. He is responsible for adult probation and restitution cases.

Skivers

Anthony Stauder, B.A., Mass Communication ('02) recently moved to Tempe, Arizona where he opened a restaurant near Arizona State University. As the owner, manager and marketing director of the restaurant, he handles catering, advertising and human resources. He plans to open a second restaurant by the end of this year.

Stauder

Parwana Hussainzada, B.S. Business Administration ('01) is a human resources assistant for Macy's West Inc. She has been employed with the company for six years, working there while attending CSUH. After earning her degree, she was promoted to the human resources department, where she assists with payroll, hiring and training of new employees and recruiting.

Willis

Todd Willis, MBA ('02) is a global consultant who has worked on international projects ranging from the post-war clean-up of Kuwait to building strategies for the capital market. In 2001 he was selected by Cal State Hayward and the Oakland Metropolitan Chamber to attend the Tradreroots Conference in Washington, D.C. In 2002 he became the Oakland Chamber's director of economic development and public policy. The Cal State Hayward Transnational Executive MBA program gave him the Outstanding Motivator Award. He is the founder and chairman of the Global Trade Alliance Corporation and chairman of the board for the Indigenous Society, a non-profit organization that brings technology to disadvantaged sectors of society. He received a Kuwaiti Liberation Medal and special recognition from the U.S. Army for clean-up efforts in Kuwait. He and his wife, Heidi, reside in Santa Rosa with their children, Ian and Emily.

In Memoriam

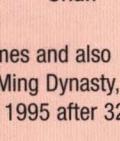

Faculty

Danny Alford (English, Human Development) died Oct. 24 following a lengthy illness. Mr. Alford, 56, was a student of American Indian languages and lived with the Northern Cheyenne people of Montana for four years, working in bilingual education. He is survived by his wife, Marilyn Silva, chair of the CSUH English Department. For more on his life and career see the Web site www.enformy.com/alford_community.htm.

Alford

David B. Chan (History, emeritus professor) died Nov. 25. Mr. Chan, 75, began teaching Asian history at Cal State Hayward in 1963. He earned his bachelor's and doctoral degrees from UC Berkeley and a master's at Columbia. He was a Fulbright scholar in Taiwan four times and also studied in China. A scholar of the Ming Dynasty, he published widely. He retired in 1995 after 32 years on the CSUH faculty.

Chan

Alumni

Sheila S. McHugh (B.A., Psychology '96) died Sept. 6 at Stanford Hospital. Ms. McHugh, 40, was a Portola Valley resident. While studying at Cal State Hayward, she worked for several years as a lecturer's assistant.

McHugh

Robert Ratto (B.S., Business Administration '91) was fatally shot while driving to work on Sept. 24, 2002. The Alameda County Sheriff's Department believes the homicide to be a random act. Ratto, 34, was a resident of San Leandro and a store manager for Safeway. He is survived by his wife, Ann, and 3-year-old son, Joshua.

Ratto

John M. Gilkison, Jr. (B.A., Political Science '95) died in December 2000, at 37, following a 16-year fight with cancer. Diagnosed with Hodgkin's disease when he was 21, he underwent radiation, chemotherapy and a bone marrow transplant. Mr. Gilkison, a political activist, joined a political consulting firm in 1985 and worked on many successful campaigns in Contra Costa County until the month before he died. He ran for the Concord City Council at age 26 and finished eighth out of 16 candidates.

Gilkison

The Deans' Digest

University Changes from 'Schools' to 'Colleges'

The four academic divisions at California State University, Hayward are now recognized as "colleges" instead of "schools." The renaming became official in November in response to recommendations of the deans of Arts, Letters and Social Sciences, Business and Economics, Science, and Education and Allied Studies. The decision followed a resolution of support passed by the Academic Senate.

"This change will make Cal State Hayward's usage consistent with that of most of our system universities and will also reflect our own university's growth and development," said President Norma S. Rees.

The College of Science

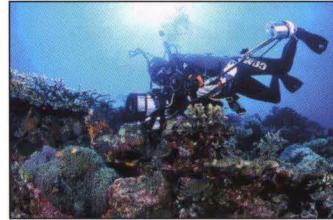

Professor Uses Photography as Habitat Restoration Tool

Those who work in habitat restoration often must rebuild an ecological community with no suitably natural site—no "target" condition—remaining as a reference.

Christopher Kitting, professor of biological sciences and campus diving safety officer, has developed a method for non-destructive sampling of the environment.

Using time-lapse photography, he provides the sampling needed for comparisons among restored or reference communities. His approach ensures no environmental disturbance is introduced during the photography. He avoids photography that may distress animals, and all specimens remain undisturbed in their natural settings.

Kitting believes suitable ecological illustrations may be the best chance to reach the broader audiences. Kitting has had his photographs, largely underwater images, published in several books and in more than 30 major journal articles, including color covers for *Science*, *Nature*, and *Molecular Marine Biology and Biotechnology*.

College of Education and Allied Studies

Swimming Pool Complex Reopens

Following a three-month closure for renovation, the university's swimming pool complex reopened in October. The \$400,000 project included improvements to both pools and the deck.

Facilities Management staff joined members of the Department of Kinesiology and Physical Education for a ceremonial ribbon-cutting, including, from left, Dave Cowden, engineering; Randy Gale, facilities management; Dan Franke, operations; Penny McCullagh, chair of the Department of Kinesiology and P.E.; and Ricardo Sanchez, assistant vice president for facilities planning and operations.

Project SOAR Receives \$2.8 Million Grant

Arthurlene Towner, dean of the College of Education and Allied Studies, has received a grant of \$2.8 million from the U.S. Department of Education for Project SOAR: Successful Options for Academic Readiness.

CSUH professors, Oakland teachers, and community volunteers are working with more than 2,000 high school students in the Oakland Unified School District to prepare them for college success. Project SOAR includes counseling and tutoring in skills required for college entrance exams.

Cal State Hayward Strengthens Ties with China

The first graduating class of the California State University, Hayward executive MBA program in Beijing was honored during a September ceremony in China.

While celebrating completion of the program that began in 1999, graduates reported on their career success since completing their degrees.

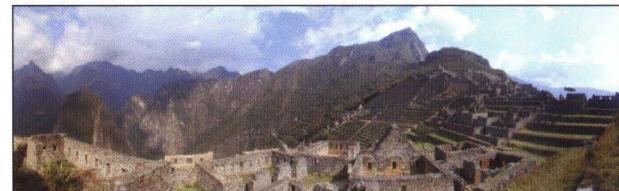

"They have become CEOs, CFOs, general managers and even business partners with each other," said Nancy Mangold, the CSUH business professor who directs the Beijing executive MBA program. "They have headhunters offering them positions they never dreamed of."

A delegation, led by President Norma S. Rees, attended the graduation celebration and the opening of a new Cal State Hayward office in Beijing. The new Beijing office opened in the 33-story China Life Tower, where Chinese CSUH staff will be based while recruiting students for the university's second Beijing class of executive MBA students.

Cal State Hayward has offered business management and public administration and programs to Chinese scholars since 1993. It also has offered executive MBA programs in Beijing, Hong Kong, Vienna, Moscow and Singapore.

The College of Arts, Letters and Social Sciences

"In the Shadow of Machu Picchu: Andean Life Past and Present," the exhibit opening Feb. 21 in the C. E. Smith Museum of Anthropology, emerged from a project initiated nearly a decade ago by Professor George Miller, museum director. In 1994, while

a visiting professor, Miller learned from a colleague at Yale there would be a Machu Picchu exhibit to coincide with that university's 300th anniversary celebration. (The ruins of Machu Picchu were discovered in 1911 by Yale Professor Hiram Bingham.)

Miller proposed the exhibit would be enhanced if the curators added computerized displays that provided digital panoramic views of the site and the opportunity for visitors to explore and discover the pre-Columbian city through 360-degree photographs.

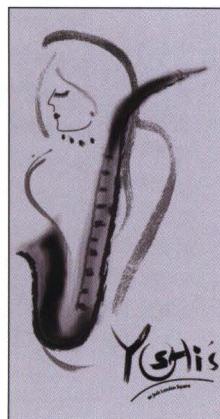

Upon his return to Cal State Hayward, Miller recruited Terry Smith, multimedia support coordinator, student Michael Bortner (M.A., '01) and three Yale archeology graduates for the project. The team, after multiple trips to Machu Picchu, produced the tour, which will be showcased in the C. E. Smith Museum exhibit.

Free opening reception is Friday, Feb. 21, 5 to 7 p.m.

Music

A Night of Jazz

Composer, arranger and saxophonist Gordon Goodwin will perform with the CSUH Jazz Band at Yoshi's, Jack London Square, Oakland. Monday, Feb. 3.
