Dear Miss Morgan :

I wrote you to kindly give the location of the ~~xxx~~ Venus statue with the four well pipes some further consideration. ✓

I did not mean that it should positively go at the end of the bridge over the boiler room, but it seemed to me that that was a pretty good place for it, and perhaps the best place in case the place where it is now temporarily located is not satisfactory.

I admit that the place where it is now may be the very best possible place; but if the lady is to be moved it seems to me that the place over the boiler room at the head of the bridge would be extremely good.

2. If we could possibly get linoleum on the upper decks of the beach houses, I would like to have it much better than canvas.

Canvas is not very nice and it tracks. Linoleum looks better and I imagine it could be cemented in such a way as to make it impervious. *Shut this out*

3. Will you kindly look through the books of furniture, of which there are twelve, and pick out what we would need for the new rooms at San Simeon, so that when I return to San Simeon these new rooms will be completely furnished.

There are a lot of beds, bureaus and other furnishings in the warehouse which I think we should use. They are not doing any good in the warehouse, and some of them are very interesting and fine. *2. but any*

Sincerely yours ,

W R Hearst
