

ON BOARD S.S. "OLYMPIC"

Dear Miss Morgan;

I cabled
to build new Giraffe field
with high wall retaining
the road on the north side
thus

and to build
the house for the giraffes on
the south side of the field
beyond the present fence and
as far south as we can
conveniently go. The field
can possibly be levelled
somewhat - I don't know
whether there is one or two,
as we don't want the giraffes

to break the stilts which they go walking around on.

I also cabled about the Tapir. He must have a wallow and I think the best place for him is near where the present Giraffe house is as there is a spring near there. It should be seen from the road of course.

I think these two places should be built while I am away. The road to the Burnett can wait until these are done.

I told Mr. Joy to proceed with the chicken house which is now not so much of

a palace and can be built within reason. I think this can be completed before winter and we can have a real place for our chickens.

I also told Mr. Rossi to enlarge the animal quarters on a temporary basis. He has my sketch. This also should be quickly done.

Now

Miss Morgan you must stop working so hard. All your friends will be really angry with you if you don't. You haven't

any right to destroy
yourself and that is
exactly what you are
doing. You wouldn't ^{treat}
an engine the way you
treat yourself. It isn't
right and it isn't good
practice. You don't
get the best work or the
most work that way
You can't race all the
time. You must rest
some time.

Please take the boat and
come abroad for a couple
of months. We will see a
lot of things and get a lot of
ideas - and we will have a good time.
Sincerely W. C. C. C. C.
