

165. Cultural Foods (3) (Former H Ec 185)

Prerequisite: H Ec 50, 54, Anth 2 recommended, permission of instructor. Dietary and nutritional practices in different cultures, as influenced by cultural and economic conditions. (2 lecture, 2 lab-demonstration hours)

169. Nutrition and the Consumer (3) (Former H Ec 182T section)

Prerequisite: H Ec 50, 54, 113 or permission of instructor. Consumer's viewpoint on nutrition and food choices; factors influencing consumer's food choices; new approaches in nutrition education for the consumer.

170. Contemporary Interior Design (3)

Prerequisite: H Ec 70 or permission of instructor. Emergence and development of contemporary furniture and interior accessories. Major designers and their contributions to interior environments. Design and critiques of projects making use of contemporary furniture. (2 lecture, 2 lab hours)

171. Housing and Society (3)

Housing requirements of individuals, families, and special groups. Analysis of human factors related to the design of housing and neighborhoods. Examination of current social problems related to housing. (2 lecture, 2 lab hours)

172T. Topics in Housing and Interior Design (1-4; max total 12 if no topic repeated)

Prerequisite: H Ec 70 or permission of instructor. Topics relating to housing and interior design.

173. Interior Design Tours (3) (Former H Ec 172T section)

A sampling of architecture and interior space. Tours include northern, central, and southern California architecture. Residential and contract showrooms visited. Expenses for required off-campus visits incurred by the student. Students may anticipate transportation charges up to \$50.

174. Contemporary Architecture and Housing (3) (Former H Ec 172T section)

Emergence of contemporary architecture, forces and architects responsible; emphasis on human factors in designed space and recent housing alternatives.

175. History of Architecture and Home Furnishings (3) (Former H Ec 133)

Styles of architecture and furnishings from prehistoric times to the present; sociological, physical, economic and religious influences.

176. Interior Design Materials (3) (Former H Ec 172T section)

Prerequisite: H Ec 20 or permission of instructor. Interior design materials available for the residential and commercial market. Consumer and specifier considerations: production, distribution, installation, evaluation and use. Lecture, small group research and field trips. (2 lecture, 2 lab hours)

177. Professional Interior Design Practices (3) (Former H Ec 172T section)

Prerequisite: H Ec 70, 176 (or concurrently) and Acct 3. Basic principles, procedures and office systems necessary to professionally organize and carry through a creative interior design project from the original client contact to final billing and collecting. (1 lecture, 4 lab hours)

178. Applied Interior Design (3; max total 6) (Former H Ec 173)

Prerequisite: H Ec 70, 175 or 170 concurrently. Creative problems in interior design intended to develop the analytical approach including emphasis on integration with architecture and allied arts. Field trips, design projects, and critiques. (6 lab hours)

179. Interior Design Exhibits (2-3; repeatable for max total 5) (Former H Ec 172T section)

Prerequisite: permission of instructor. Provides a structure for students to participate in a competitive design show. Course can be taken for 2 units (as an assistant) or 3 units (as a show participant).

190. Independent Study (1-3; max see reference)

See *Academic Placement—Independent Study*.
