OFFICE OF
WILLIAM RANDOLPH HEARST
LA CUESTA ENCANTADA
SAN SIMEON, CALIFORNIA

March 21, 1930.

Dear Miss Morgan :

If you approve of the art gallery, I certainly like the idea of the facade as you suggest; also of duplicating the design on the two walls of the patio.

I think we can make a finer patio in this way, and I doubt if the east entrance could ever be as imposing as what we can make on the north side.

2. I mentioned the columns for the pergola because I wanted to go ahead with it NOW and complete it as far as the gate on the south side, and a corresponding distance on the north side.

Next year we can finish it.

I did not want to cancel the contract nor to use the columns as drains. I just want to make enough pergola to get the planting well started soon.

Sincerely,

W R Hearst
