Dr. Sally Roesch Wagner

Dear Dr. Wagner,

On behalf of the Commission for Women, we thank you for your presentation at our Women's History Project luncheon on March 19.

Your program was interesting and educational. We thank you for introducing us to a vital woman in our history, of whom most of had never heard.

We're glad your family was able to attend the luncheon with you.

We hope your work continues to go well. Thank you again for sharing it with us.

Sincerely,

Brook Hubbell, Ed. D.

Sally R. Wagner

Dear Sally,

What a treat to meet you, finally, and be introduced to Matilda Joslyn Gage.

Our luncheon on the 19th was a total success. We wish you could have heard all the comments from the people who were there -- people felt energized and empowered, not to mention educated! We thank you so much for your fine presentation.

You created such enthusiasm that our volunteers were overwhelmed by the crowd wanting to buy your books and posters. The plan was to write all sales down in a receipt book so that you would have a record. However, the crowd was too impatient so we can only hope that the amount of money you received was correct for the number of items sold. Some people didn't even wait to be helped - just picked up the items they "had to have" and put their money on the table -- and went away smiling!

At any rate, at least you know that there are many people in Ventura County who now know a lot more about women in history than we did before your visit.

Thank you again for coming. It was wonderful. We wish you continued success in your work. We think happily of all the women in your future who will be able to meet you and Matilda - through your work.

Sincerely,

Brook Hubbell, Ed. D.
