New Course Request GEOG 201 (Item #4)
Geography

Request submitters provide a history or overview of the proposed certificate program. This could include the survey items used to gauge demand for the program in 2012.

Assessment methods – subcommittee members would like to see more emphasis on the writing component of the course along with the possibility of using a project or case study as part of the assessment.

Strengthen primary learning outcomes – subcommittee members would like to see a move away from the use of the terms “derive” and “discuss” to the use of graduate-level terms such as “formulate,” “analyze,” and “evaluate.” See Bloom’s taxonomy as a reference.

Catalog description needs to be listed on the syllabus. It is currently listed as “course information” on the syllabus submitted to the subcommittee.

All of the recommendations were approved by the subcommittee - MSC

New Course Request GEOG 202 (Item #5)
