

The Smittcamp Family Honors College was originally funded with a generous \$1 million gift from the late Earl and Muriel Smittcamp and family. Earl Smittcamp, a prominent agribusiness leader, graduated from California State University, Fresno in 1939. Earl and Muriel, also a Fresno State graduate, have four children — all alumni of Fresno State — and 14 grandchildren. Earl Smittcamp and his family demonstrate the leadership excellence, innovative thinking, and personal daring honors graduates strive to achieve. The Smittcamps exemplify their belief that education is really dependent upon what an individual makes of it and that “excellence” is never accepting less than the best from yourself. The Honors College owes its existence to their generous and continued support.
