

awful? Well I know I am, and that goes to show how popular he is. He quit or rather accepted a commission into the army, at least that's what I heard. This position consists of supervision of just recreation: youth's social activities; clubs and organizations; fine arts; forsenic; adult activities; boys' and girls' sports, crafts; and couple other departments. Under the named divisions are segregated the different activities as for example--under fine arts would come music, dance, drama, etc. Under clubs and organizations would come girls' reserve, boys' scout, etc. Nursery, education and social welfare is listed under Community Services but Rec. is under Communities Activities, a sub-division of Community Services; therefore, has little connection. The Rec. office is a nice office--the only office which is suppose to be fixed nicely other than the Ad Bldg. but it is a cane-raising place. It's really noisy. I thought the Pinedale office was noisy enough, but oh, you haven't heard anything until you're here--this one is terrific. It's not kept very clean now either. If you want to be heard in there you have to shout at the top of your lungs. I believe and I'm quite positive that the results of this kind are due to the supervision. And did you know Mr. Bengston, that the former supervisor was never at the office? Sometimes he came as often as once a week. Now you have some idea as to the picture of the messy conditions at Tule's messy Rec. (Wreck). That is why we need you here. We know that if you were here we'd have more efficiency and accomplishments. So you try your best to come, won't you? Maybe if you write a letter to the Project Director, Elmer L. Shirrell, he can do something for you. We're trying everything we can do to have you here. Well, so much of that.

I don't think we'll ever have any such thing as a photo studio here. I wish they would--but I guess that's just another one of my wishful thinkings. Please do send me a picture of you and your family. I will dig up one of my snapshots and send you one. But I'm giving you a head warning that I take awful pictures and so don't faint when you see it. I just hate to show them to anybody but I promise that I'll give you one.

On Saturday and Sunday (10th & 11th) we had a Young People's Christian Conference and had a grand gathering. The rain Saturday gave the conference a slow start but yesterday we had quite a turnout. I didn't get to meet and mix with people for I tried to help with this and that. I feel that I didn't do much helping but had fun anyway.

Today we are getting our share of the sheet rocks or plaster boards in our apartment. After that is put in, our apt will look more like home--I hope. All the other barracks have theirs in except the ones in Ward VII. So I say that it's about time we got ours. And the only way we got ours was by
