2.88	690	15	2.63	890	20	2.38	1090	25	2.13	1290	30			

Below 2.00 does not qualify for regular admission.

**Eligibility Index**—The eligibility index is the combination of your high school grade point average and your score on either the Scholastic Aptitude Test (S.A.T.) or the American College Test (A.C.T.). For this purpose we compute your grade point average on your final three years of high school studies, excluding physical education and military science, and use bonus points for certain honors courses. CSU may offer you early, provisional admission based on work completed through the junior year of high school and planned for your senior year.

You can calculate the index by multiplying your grade point average by 800 and adding your total score on the S.A.T. Or, if you took the A.C.T., multiply your grade point average by 200 and add ten times the composite score from the A.C.T. If you are a California high school graduate (or a legal resident of California for tuition purposes), you need a minimum index of 2994 using the S.A.T. or 722 using the A.C.T.; the table below shows the combinations of test scores and averages required. If you neither graduated from a California high school nor are a legal resident of California for tuition purposes, you need a minimum index of 3402 (S.A.T.) or 822 (A.C.T.).

Applicants with grade point averages above 3.10 (3.60 for nonresidents) are exempt from the test requirement.

**Transfer Applicants.** You will qualify for admission as a transfer student if you have a grade point average of 2.0 (C) or better in all transferable units attempted, are in good standing at the last college or university attended, and meet the following standards:

- were eligible as a freshman, or
- were eligible as a freshman except for the college preparatory subjects in English and mathematics and have completed appropriate college courses in the missing subjects, or
- have completed at least 56 transferable semester (84

quarter) units and have completed appropriate college courses to make up any missing subjects in college preparatory English and mathematics. (Nonresidents must have a 2.4 grade point average or better.)

For these requirements, transferable courses are those designated for that purpose by the college or university offering the courses.

**Subject Requirements.** The California State University requires that all undergraduate applicants for admission complete with a C or better four years of college preparatory study in English and two years of college preparatory mathematics, or their equivalent. California secondary school courses that meet the subject requirements are listed on "Courses to Meet Requirements for Admission to the University of California," published for, and available at, each high school.

**English**—Regular English courses in the 9th and 10th grades that integrate reading and writing will be considered college preparatory. English courses in the 11th and 12th grades will be considered college preparatory if (1) they include writing instructions and evaluation, and require substantial amounts of writing of extensive, structured papers, expressive and analytical, demanding a high level of thinking skills; and (2) they are integrated with challenging, in-depth reading of significant literature.

Courses in speech, drama, or journalism will be considered college preparatory if they meet the criteria for 11th and 12th grade courses. Two consecutive semesters of advanced English as a Second Language may be substituted for two semesters of college preparatory English. Remedial reading and writing courses at any level will not be accepted nor will courses in beginning or intermediate English as a Second Language.
