WILLIAM RANDOLPH HEARST
LA CUESTA ENCANTADA

March 27, 1932.

Dear Miss Morgan :

I think the large stone door is fine for the end of the billiard room; but I do not think the small stone doorway is as good as we can get. In fact, I do not think it is as good as the doorway of the same kind which has the two escutcheons on it, which we recently purchased from Demotte.

Possibly we have still other doorways from which we might choose.

2. As I remember the Romanesque mantel, it did not seem so very large.

But we will know better when we get definite details from Chris.

Of course, as you say, in character it is perfect.

Sincerely,

W R Hearst
