Oxnard Elementary School District Board of Trustees Meeting
Oral Presentation
May 5, 2010

When I became involved with the issue of Principal Debra Cordes being demoted as Principal and reassignment to the classroom, I started to research and look for reasons for the – demotion decision. My over 30 years working in Civil Rights, specifically related to employment issues, has taught me to start by reviewing two areas: **First, how funds are spent and Second, reviewing performance.** In the process I learned a great deal about API, AYP or Program Improvement and academic scoring. I continue learning something new every day. The last time I was here in this board room I picked up a flyer that was on the back counter. It is called the Oxnard Elementary School District Title III AMAO Goal Report. Although I am not familiar with details of the scoring process – the report shows how well the English Learners in this District are performing. As I'm sure you know very few of your schools are meeting the needs of the English Learners, but guess what? Harrington School did better or equal to the District average in 3 of the 4 measures and they out performed 6 of the 9 Year 5 Program Improvement Schools in the area of Reading and out performed 7 of the 9 in math.

It puzzles me why you would want to reassign a principal from a school that is clearly doing better than schools of similar student population. It is also frustrating, after appearing before you **four times, requesting that Principal Debra Cordes be retained as Principal of Harrington School – I, we have not received your response.** I want to assure you that we will continue appearing at your Board meetings until we receive your decision.

Respectfully,
Lupe Anguiano
Executive Director
Stewards of the Earth
Oxnard, CA 93036
