

4/15/97

Dear Michele Gerros

I thought your presentation was pretty cool. I understood what you were talking about because I grew up in a big Mexican household, so a lot of things you said made sense to me. I think it's cool that you're going to schools and telling kids to follow their dreams. I would like to thank you for coming to my school being so busy and all. But all I'm trying to say is thanks for coming and keep helping others.

Yours truly

Arduo Paz
