Dear Co-Chairman and Women County Chairmen:

Last week our mailing for the Sacramento Seminar of the Women's Division Legislative Program Campaign was sent out.

As per the suggestion of the women co-chairmen at our San Francisco meeting, we are holding back five registrations for each district in order that you can be assured that the women who are the leaders in your area will have the opportunity to attend.

As is usual, the reservations are coming in slowly at first, but we know that there will be a last-minute rush.

Because we feel that this Seminar will do more to stimulate women to activity in next year's campaign, we know that you want to have your district represented by people who will be helpful to you.

We have worked very diligently to arrange the Seminar as economically as possible and with a maximum of fun things along with the serious business of learning about our Legislature.

Therefore, we are urging you to immediately contact the women whom you would like to have attend and get them to send in their reservations at once. We certainly do not want the Los Angeles and San Francisco areas to have excessive representation at the expense of the outlying areas. Reservations should be sent to me, South, and to Jane Morrison, North.

Please get yours and your active women's reservations in within the next few days!

Your cooperation will be appreciated by us and will pay off in an informed and eager group of workers for your district.

Sincerely yours,

Carmen H. Warschaw  
State Women's Chairman

Marta Holen  
Legislative Program Campaign Chairman

*Handwritten signatures: "Hush" and "Welcome"*

*Handwritten note: "Only cards and legislative targets are available at hq."*
