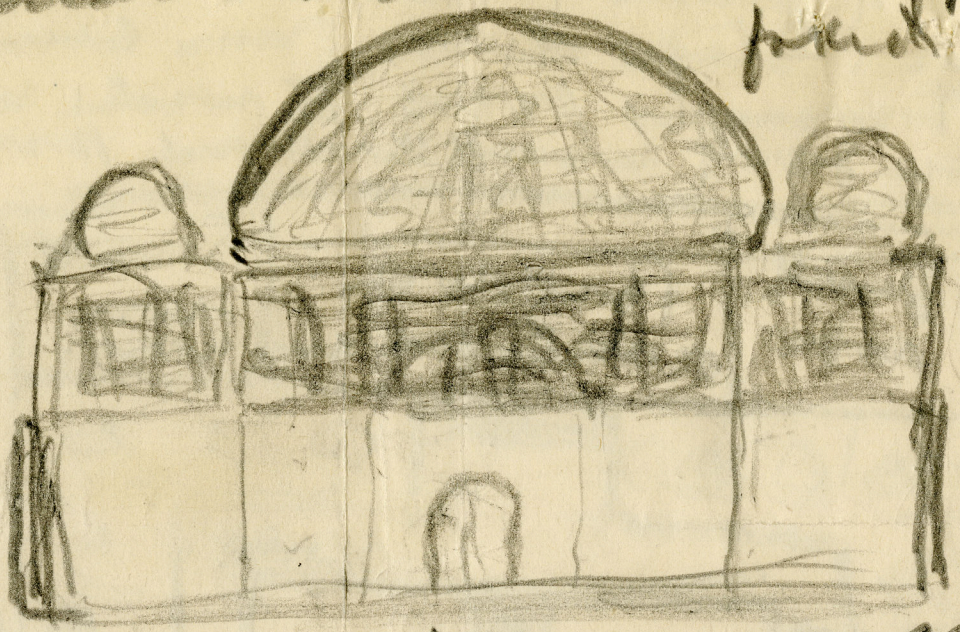
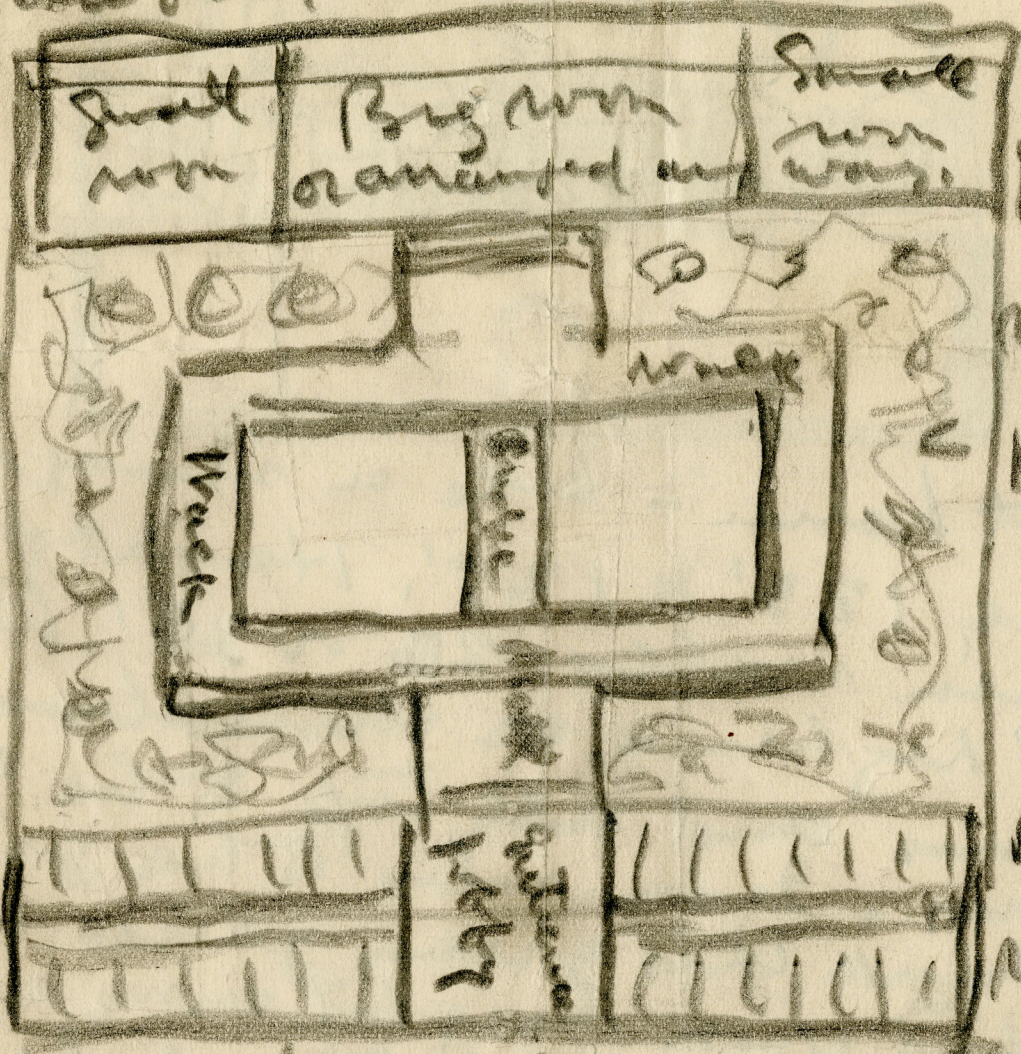
William Randolph Hearst.
Architect



Hot house - like a museum.
Size 125' x 125'. Height of dome
main roofs 20' or 30'. Dome
15' higher - or thereabouts.
Domes and all to be green
glass. Iron ribs & the gilded
I think this green glass and
gilded iron might come about
half way down the sides. The
rest concrete. That would be
quite a project hot house if it
would be architecturally

Ground floor. Three rooms towards the sea. Steps down from centre room towards pool to make walk. Three bow fronted windows. Pool 75 ft by 25 ft deep 75 x 25 Planting all round



Walk round pool bridge in middle of pool

Drive

Terrace

Entrance towards north. Three rooms on each side of lobby. Steps down from lobby to pool and Planting. Space left for Palms trees and shrubs
