

warm. We've had only about 3 days of rain. These only being cloud bursts. I'm all prepared for winter now - I got a pair of ski suit and ski boots and am a ready for any snow.

Frank Doi really went on the warpath but not any more - he left for the beet fields last Wednesday morning. I guess he got lonesome after Choppy and Jimmy left. Over 600 people have now left the center for school or outside work. There are many more expecting to leave in the near future. Iku Nishikawa (Nursery) left for the U. of Denver. She is planning to hop to the altar around Xmas time. Also practically all former Rec. Attendants have left for the beet fields-- Choppy, James, Frank, Matsu, Stogie, Tosh Shimogaki, Tosh Yamanaka, etc. I wish I can leave too.

The activities here are pretty slow - result being the lack of facilities. So our block being way out in the "sticks" formed a club called the "68 County Club". The club consists of some 60 members 16 and up and those that are unmarried.. Since our Pres. left for the beet fields I am filling his shoes. We've been holding parties, dances, different kind of classes so that none of us would have to walk a mile or $\frac{1}{2}$ a mile for entertainments or enjoyments. Up to date the club has shown to be quite a success.

My other spare moments are still being spent going out to socials. There is some form of party or dance taking place everynight. And since it's the only way out to do something Igo. I've limited myself to only three a week.

When are the Fresno evacuees going to be re-evacuated to a relocation center? Aren't they the only ones left at a assembly center?

My boss has been in San Francisco for a week now and is expected back today. I hope he doesn't come back. Aren't I just awful. Well, that's how I've gotten since I've come to Tule. The camp life was a novelty at first but It's a dull and monotonous life now.

Well I'm sure I've bored you enough for the time being so shall close.

With sincerest regard to you and Mrs. Bengston --

*P.S. - Please write
again always happy
& hear from me!*
