

HEY!

guess who's going to have a chic birthday party
this year, with hundreds of friends, a huge luscious
birthday cake, lots of gourmet food and simply loads
of beautiful, expensive presents?

Michelle,

I just wanted you to know that
in spite of your last weekend's experiences
and the fact that your birthday party
Princess Diana!

(You, on the other hand,
are getting this incredible card
from me!)

won't be that special because I won't be
there - I know you'll turn 21
anyway. Take comfort in this fact
in these times of trouble - and Happy Birthday
Laura
