Not one, but many elements can achieve all the goal to one and look at to count shekels to see my education. And without one person in our life, I.

00:02:56:18 - 00:03:19:03

Unknown

Without education, without education, we cannot achieve, we cannot achieve. We cannot achieve my dreams and accomplish our goal without giving many opportunities to the life that I come to. Nothing, nothing at all. And that as I think the life and education is one of them, we must keep on the history and go directly and only do this education.

00:03:19:05 - 00:03:43:02

Reckless, irresponsible, corrupted. These are a few descriptions you may hear everyday by our media, which seem to thrive on the downfall. You may have even thought to yourself, what is are you coming to? Well, tonight I think I can answer that question, or at least attempt to instill in many doubtful minds of hope and faith in our future leaders.

00:06:15:04 - 00:06:42:00

Unknown

The reason I have so much faith in our youth is because I think an association every day expanding their knowledge, overcoming obstacles, improving themselves, helping our community, and ultimately making a difference. You make the hour in the morning. You see our faces on the streets can't let you go. I think that for the most part I the station is school, and education is our freedom and an enormous part of our youth is making a choice to liberate themselves by attending school every day.

00:06:42:03 - 00:07:04:00

We are also actively involved in the hardships of our community. We've been endless hours in your kitchen, convalescent home and clean and many other services. We are definitely committing ourselves to the needs of our community and we do not stop there. We offer this challenge so the majority decide to practice and improve whether it is down a musical instrument or another form of art.

We are out there and mastering our special gift I give people. We are also frequently faced with many temptations and decisions that can positively or adversely affect our life. In any case, in order to guarantee that what you just have that will benefit us, you must be able to see and feel support for. When you say we do not soon support, unfortunately fall and become misguided that is why it is so important for you to be aware of what is potential.

You will connect with, you know, you must have responded with a vengeance. And I think a lot of thought that I to it when it was a meeting that wasn't the only requirement because it actually told them at the end of last year, 1 or 2 died in those of India with a huge.

00:08:27:19 - 00:09:10:19

Head were many girls were all surprisingly. Oh, really? I don't see it goes on because it just makes the front. Oh, okay. Okay. Not given your all smiling up. You go to the races.

00:09:10:21 - 00:09:37:22

Unknown

But let's start with a smile. Because if we are, then we say I have extended what I have. You know, I don't know how that it will get home, but people don't understand it. I want to thank you for sending. Thank you. Support with the, privacy. I will put it. It is very hard for an individual to succeed if there's a lack of self-esteem, towards gender or ethnic background.

00:09:37:24 - 00:10:05:05

Unknown

My own personal experience has proven to be true. When I arrived to the United States from Mexico, I was 12 years old, and my ultimate dream was to become the all American girl that I been depicted in movies and television ever since I could remember. Well, starting to become this typical American girl. I followed my hippie active culture, family way of life, getting my way.

00:10:05:08 - 00:10:26:07

Unknown

I thought it necessary to reject everything that made me the person who I am. But soon I realized that by rejecting the beauty of my people and my culture, I can deny any part of my soul and my spirit. It became clear to me that I would not be able to respect myself if I did not accept myself fully.

00:10:26:09 - 00:10:52:11

Unknown

So I desperately searched for role models on movies and on television. This is, after all, the media is supposed to be a mirror image of society. But what happened when a young Mexican American woman like himself cannot find her portrait of me, of who I come from, who am and what is my place? Everyone will look like me.

00:10:52:14 - 00:11:27:02

Unknown

Tell and came from, I think, cultural background, represented by the Indian high school dropout. Indians are similar to each other, but these people did not respect who I am. Ladies and gentlemen, who will people to relate to and feel proud of. There are so many qualified and respected Mexican Americans in this country, so one of the most important things for ourselves is from children, after all.

And if organizations like the G.I. forum to it is political movies like this that Chinese congresswomen like me to be like this and it truly a true academy. Like I said, I'm culturally representing who we are and what we stand for. Thanks to the people who have dedicated their time, love, and energy to the Hispanic community. I now stand this time and like you, I am a proud to be Mexican American, talented, gifted, and ready to to these great ethnically and culturally diverse society and only I choose.

Unknown

I.

00:13:32:13 - 00:13:59:06

Unknown

Have been on the judging. Yes. And then I think you in traumatizing experience, has affected the really way people can make changes in your life. I mean, I would say now that I'm not only a child yet, you can hear it on two. You can see the focus on one's life journey. You're also out of it. Everyone is on a journey through life.

00:13:59:09 - 00:14:27:13

Unknown

Those people that we have along the way from relatives, close friends, wherever you, for many people, for me, that one person who was around when I was 11 years old, my grandmother was diagnosed with Alzheimer's and, you know, he needed it. Take away a lot of know that hand you went down your metabolism. Thank you for that is the starting point and an emotional journey.

00:14:27:16 - 00:14:40:29

Unknown

But for me as well, I know. That these were always important to my grandfather. There was a foundation to the house that he called life.

00:14:41:01 - 00:14:52:09

Unknown

And he called early on because of how many, in fact, without even an education.

00:14:52:11 - 00:15:07:02

Unknown

He himself had to leave school at the tender age to support the college, which is very it always meant to do that. However, he never had that preparation.

00:15:07:04 - 00:15:30:05

Unknown

What he did to or when he did, you know with you still in your family is important to school and especially now especially occurred to me when I could when I could tell that math problem, where I could tell that way is always there to tell me, you know, sometimes that it belongs to all of us. Like he's the brother.

00:15:30:08 - 00:15:39:03

Unknown

Yes. You have to this day. Yes, you can to carry this as the guiding light, and that today.

00:15:39:06 - 00:16:17:21

Another part of my novel is how the blood, the family outing was especially important to him and his family has, and how they have been like, you know, that everyone around him, he always looked forward. And I try to look forward to that as part of the family. However, I appreciate how strange and magical all the children that everyone has because when we can agree on something for them all that was and I was always there to tell them in the way that those words would carry us through the other.

00:16:17:24 - 00:16:41:29

Unknown

Another aspect, another part of my childhood is in the same way, tell you that we all had a limited amount of time and know what we should not and should always be appropriate. You can always think has a feeling of people and he right. He community was very important to him. He had always and had always held his family out in times of crisis.

00:16:42:03 - 00:17:09:18

Unknown

He also believed that. Whenever I feel that I cannot make that time, that when I was a child, I always remember I can take time for some out. Almost three years ago I did and we always that with the games and for my life. And that is an unfortunate.

00:17:09:20 - 00:17:32:19

Unknown

Foundation in foundation of this foundation I have loved waited for him to come off and also while I don't do this, I know how it was to learn how to say goodbye and his journey with me behind it is personal legacy for others just for others to follow or not.

One of the cultures in Vietnam. Many of you cannot make the difference. Go on. Carol, we are very familiar with the many sacrifices and struggles our parents and grandparents have faced to give us the life of many African cities. We will make Ghana. Today's Latino youth are fast to adapt to the American life, but never shall we allow ourselves to lose recognition in the importance of our most valuable culture, tradition and morals.

00:19:01:11 - 00:19:28:08

For these customs will be the foundation to build a powerful Hispanic society. Como Medical. The men also important to the only harmful little common because when you strive for it, work together with your children. Many of us ignore the importance of an education and prioritize a minimum wage job over the struggle for good academic drink. Do not let this happen.

00:19:28:15 - 00:19:58:09

Unknown

We must guide ourselves to a better future. And of course, this is the last day. This is what is the best choice by the whole. The child, my nana, the struggle of nature. We must sacrifice energy to secure a better tomorrow. Only by educating our Latino community now can we grow. We reach the quality strength we desperately need by providing the continuous attention, support and guidance of families, friends, teachers, school program.

We can succeed. As a freshman in high school. I admire the lost individual who is the citizen, an academic as well as an extracurricular activity of many Ghana. Struggling with my courage, I strive to become similar to those who I admired. I assume gonna have succeeded. I work hard to break the chains contentment. I grasp others within my reach, and I am proud to be a leader.

As a senior class president at James Cook High School, I not only got my graduating class to be involved with our community and school position, but I had all these courses perform as a varsity cheerleader, play soccer, and I'm involved with many clubs, with many now at the level of channel 48 through the week, I have gained professionalization and hope to serve as a role model to others.

Slowly, we are making a difference where so many of us have had this country. Our Hispanic population is still minimal at our top universities and graduate school for the second year, education has grown in half an amount that many of us cannot afford. We must subsidize with the reach of all grass loans and scholarships available. The only way complete success can be attained is by receiving his education.

You're out of time. Out dressed and that of the world consistently has been tested by any of this people. Today we witness those. This lowest on who believes in terrible government. Cuba. Fidel Castro was tortured and oppressed. Just people. And as as you have your own presidential family has become the epitome of scandal. If these are our leaders or in our case are elected officials, men and women, a questionable statue, how do they reflect the declining integrity of the nation?

00:22:35:13 - 00:22:59:06

Unknown

If this is our challenge and we must deal with it by maintaining our own individual sense of integrity, we must listen to our conscience to live up to our character. By insisting that we treat others with the same respect we would treat ourselves. It is my belief that integrity is the basis of character. Without integrity having been tested or admired.

00:22:59:09 - 00:23:25:05

Unknown

We constantly look up to others comparing the qualities of integrity. But how can we demand so we ourselves can never hold up to that promise as we search within ourselves for the ideal persona and yet loving, it may be difficult to remember, then we can never lose hope. We can tell our children about this like Jesus, a man who works right up the microphone.

00:23:25:06 - 00:23:52:29

Unknown

Our first. We have one. God loves a woman who has pushed to become a voice in government as a woman member of a minority, and they will never forget those who give their life to the service of others. The cancer of the world is constantly on our shoulders. They don't give up. They often tell their self, I am only one and I will never make the difference.

00:23:53:02 - 00:24:15:13

Unknown

But it is with that one that it all begins. They may never change the world, but we can change ourselves. And if enough of us change ourselves, then that will change the world. Thank you. In this, the.

This is really what the collection is like on CNN. They get one of them. That is an expression good enough. I look forward enough if you to give them a platform. By the way they do that, I suggest that I am as a little saucy little fellow called mean. I should level ethical money that that a little hardly ever done in the country, I don't know.

00:26:58:19 - 00:27:23:19

I see myself in college and when that day comes, I know I will accomplish another goal of mine.

00:27:48:16 - 00:28:10:16

Unknown

And now everyone is looking to the future. Once again. But also continuing the rest of my goal and seeing the same thing in a important and well educated mentality. I am aware that one should this as I was completing one that only take many steps. Only in this way I want to be contributing to a culture and a community.

00:28:10:19 - 00:28:37:02

Unknown

But now the next day can be a contributor to our next generation. There are goals out there. Not one, but many. I want to accomplish all the goals we want. It is up to us to receive an education, accomplish our goal and be there for a person in our life. We cannot do this without education. We are given so many opportunities in life is actually not giving us any.

00:28:37:04 - 00:29:04:04

Unknown

It is ever the right things in life and education is one of them. We must keep on looking, must keep up the strength and go in the right way. But we could only do this with education. Thank you for your attention and have a nice evening, which is my best position. And we want to thank him.

Not only do not think I'm in need of continuing to focus on this unit, beneficial has been done before. He is known as the one, and you're willing to go back in every one and decide if you will let me know. You must understand it. It is infinite. It could have been anyone and is not going to. Well, I mean, who doesn't like it when it comes to letting go?

00:33:53:19 - 00:34:02:03

Unknown

When it is all of us you believe and you when? When much?

00:34:02:05 - 00:34:10:02

Unknown

A much better is the idea. I want of.

00:34:10:04 - 00:34:37:00

Yeah. There's a daughter of model and a young model. She is 18 years old and a senior in high school. She has been a member of Unity Through Diversity, a club she founded at her school her sophomore year. Throughout her involvement, she has had the opportunity to meet several public personalities, such as Edward James and Congressman Norman Mineta, and she even arranging tours with men at the Japanese internment camp at the mission and the theme of art.

00:34:37:03 - 00:34:58:04

Unknown

Throughout the years in high school and part of the speech and debate program, and has achieved her goal of competing at state and national level. Yadira has recently worked on a video to recruit minority students. In the fall, she will attend in the college or later transferred to UCLA, and is currently an intern at a TV channel for teens.

00:34:58:06 - 00:35:17:29

Unknown

Her plans are in communication with an emphasis in television broadcasting, and they are hoping to follow in the footsteps of her father, who is her role model and reach the top. But without forgetting about her background, the local community is the leader on whether.

00:35:18:02 - 00:35:43:02

Unknown

Where the state is with the help of all people at every step. At this point in that respect, I believe that the potential people understand this. I will say this. I think those things just a moment. I think you get out of college a and it's very hard for individuals to succeed. And there's a lack of self esteem due to one's gender or ethnic background.

00:35:43:04 - 00:36:10:24

Unknown

My own personal experience has proven this point to be true. When I arrived to the United States from Mexico, I was 12 years old and I ultimate dream is to become the all American girl that I've seen depicted in movies and television. Ever since I can remember, I'm striving to become this typical American girl. I felt I had the actual culture, family, and way of life getting in my way.

00:36:10:27 - 00:36:42:04

Unknown

I thought it necessary to reject everything that made me a person. And soon I realized that if I denied the beauty of my people and my culture, I'd be rejecting part of my soul and my spirit. It became clear to me that I would not be able to respect myself if I did not accept myself fully. So I desperately search for role models and media and on television, because after all, the media is supposed to be a mirror image of society.

00:36:42:06 - 00:37:13:04

Unknown

But what happens when I have a Mexican American woman like myself not being portrayed as media percent? So I asked myself, who and what is the place? What is my place? Everyone looked like talk like me and came from the same cultural background represented by the media, from high school dropouts, gang members or single teenage mothers. But these people did not represent what is.

00:37:13:06 - 00:37:50:27

Unknown

Ladies and gentlemen, we need all models. People should be made to feel proud. There are so many qualified and respected Mexican Americans in our community. So let us support. So let us be part of this role models for ourselves and for our children. After all, it is organizations like the Jet forum that make any political movement like this that Chevys, ice skaters like Judy Garland and Attorney General and truly represent who we are and what we stand for.

00:37:51:00 - 00:38:22:29

Unknown

Thanks to the people who have dedicated their time and energy to the Latino community. I know, and with pride and the way I am, I would be a proud to be Mexican American, talented, gifted, and ready to get into this great ethnically and culturally diverse society. As only I can. Each of us is unique and encourage one another, and it will be through this unity that we will obtain a better tomorrow.

00:38:23:01 - 00:38:30:29

An evening of energetic. Yes. And your Majesty. How the testing experiences can affect us in many ways. People can make changes in their lives that are not evident at the time, yet they don't appear in Iran. These changes can be the focus of one's life. Changes are also relevant to everyone for all they journey through life. For me, that one person is my grandfather.

00:40:13:10 - 00:40:34:14

Unknown

When I was 11 years old, my grandmother was diagnosed with Alzheimer's disease and debilitating disease. It takes away your mental capabilities. My parents usually worked on the computer, so my time was most at the time of my. This was the starting point and innovations ready both for me as well as technical. That is and always been important to my grandmother.

00:40:34:18 - 00:40:56:11

Unknown

They are the foundations that built his house life. Early on, my grandfather still impressed upon me the value, the education. He himself had to leave school at the tender age made for a growing family at 13. He said he had always been to that time where he never had that chance. When he did, you know, we need to do that with children.

00:40:56:18 - 00:41:16:15

00:41:16:18 - 00:41:27:10

Another part of my grandfather's that has the right with family, that we had always been a friend to him and to everyone around him.

00:41:27:12 - 00:41:51:08

Unknown

He always called into that one party or that one gathering and he just had a little birthday. However, as his mental health deteriorated and they started to float and he forgot, however, that he was angry at himself, and because he brought all that was important to him. I was a season that those words would carry us through many of our time.

00:41:51:11 - 00:42:11:16

Unknown

Another aspect of my grandmother's house away was community. You can always give. You can always make time for something else, she said. And of course, she was right. When I just feel that I cannot. I don't have the time or I cannot give my time to someone else. I always remember I can always make time for something else.

00:42:11:18 - 00:42:37:18

Unknown

Almost three years ago, I had to give up something that was very close to me. He had always been there for me and he wasn't. He didn't get any visits from my heart. And he died in a postcard. His circle of life was his friendship, and it is also my journey with my grandfather was to know, to say goodbye, and his journey was to leave behind an inspirational legacy for others to follow in my life.

00:42:37:21 - 00:42:52:18

Unknown

However, I know that I has to have time to complete and rest. My house is still being built. However, I know that I can make it. Yes, I can.

When I wasn't even getting to be, you know, making a difference or making girls, we are very familiar with the many sacrifices and struggles our parents and grandparents have faced to give us a life with many opportunities. We want to make other today's Latino youth our best to adapt to the American way, but never shall we allow ourselves to lose recognition in the importance of our most valuable culture, tradition and morals.

00:44:43:06 - 00:45:09:24

For this, because I was given the foundation to build a better society, all while making girls the people that I call sending our best as a member of the student. Come on, pick other leaders, strive for more and work together with our children. Many of us ignore the importance of an education and prioritize a minimum wage job over the struggle for good academic training.

00:45:09:26 - 00:45:38:05

Do not let this happen and its worst is grounded. But on the part of the child, whenever the struggle with nature, we must sacrifice to a better tomorrow. Slowly building the main goals or making a difference. So many of us in this country are Hispanic. Population is still minimal at our top universities and graduate schools. Since the secondary education has grown. Of course, I know that many of us cannot afford in the subsidized individual grants, loans and scholarship available.
