

THE E.L.A. MURAL TOUR

GOEZ Art Gallery in East Los Angeles has been a part of the Mexican-American mural movement since its inception in the late 1960's. Artists associated with the Gallery have painted many of the over four hundred murals which deal with a variety of themes reflective of the multicultural experiences which the urban setting provides. Many questions have been directed towards the murals and the Boyle Heights and East Los Angeles area where many of these murals are located.

As a result GOEZ has been conducting mural tours for a number of years in order to better inform the general public. These tours cover some of the multi-ethnic experiences and cultural influences which result in many of the visual expressions which can be witnessed when driving through the area. However, focal points of historical interest, historical architecture, as well as explanations of some of the murals are also included in the tour.

The tours are available to institutions of all kinds or individual private parties. The purpose of the tours is an educational one. That is, we intend to promote an understanding and cultural awareness of the area, people, and the arts of Greater East Los Angeles.

For further information or tour arrangements, please call 264-7265, Tuesday through Saturday 10 a.m. - 6 p.m.
