

It is <sup>in the light of our present knowledge</sup> ~~easy~~ to imagine  
the race of animals with increased  
desires and <sup>larger</sup> ~~means~~ of satisfying those  
desires exercising a choice in the selec-  
-tion of homes and dwelling places,  
The species are more and more differ-  
-entiated by environment, types are  
multiplied and fixed by local causes  
until we arrive at our present variety  
and diversity of prairie animals  
that inhabit every <sup>land</sup> ~~land~~ on the  
globe.

# HOTEL RAMONA.

SAN LUIS OBISPO, CALIFORNIA.

This Hotel is first-class in all particulars. Delightfully situated on an eminence overlooking the city. Salubrious climate, and beautiful surroundings. Only five minutes walk from the center of town. Street cars every fifteen minutes. Special rates to Tourists and Commercial people. All passenger trains of the Southern Pacific stop within a block of the Hotel.

The Sycamore Hot Sulphur Springs, famous as a cure for rheumatism, (and a delightful resort), are within a short distance. Good roads, pleasant drives, beautiful scenery. We are not conducting this House to make money, but to accommodate the public, as our patrons can testify, and we most particularly invite our own county residents, when visiting San Luis, to make this House their headquarters. Come here and be at home.

R. E. JACK,  
Proprietor.
