

Dear Mr Willsonbe opened

The letters, both
~~the envelope~~ contained
folded tracings of garden
longants and Mrs A's notes
overing these & other detail
matters ~~of no interest to any~~

~~one~~ ~~the~~ These were probably
evident at once. I only
called attention to it because
of its happening twice in
succession.

The Agent
from the S.F. post office showed
me how the 1st one, a plain
envelope, had been steamed &
resealed.

Yours T.

Dear Mr. Willicombe:

The letters opened both contained folded tracings of garden layouts and Mr. Hearst's notes covering them and other detail matters. These were probably evident at once. I only called attention to it because of its happening twice in succession. An agent from the San Francisco Post Office showed me how the first one, a linen envelope, had been steamed and opened.

Yours very truly,
