Nov 20 1927

Dear Mrs H

It has been difficult to get good pictures of the proposed animal shelter houses sited by the research ~~of the~~ nearly always such locations are above or below the ~~block tests~~ usual track. Each of the proposed sites has an open ~~n~~ family unit feeding ground adjoint ~~#~~ two (8) bird houses addition each one with a tube of hay & it certainly was a pretty sight coming down to see the ~~w~~ the animals grouped ~~th~~ thereabouts - on these natural feeding spots. The Numbers 1 to 6 run from the upper ~~Hu~~ all the S.S - Shelters to be located all by natural cover ~~by~~ ~~shelter~~ ~~provided~~ ~~by~~ ~~shelter~~ ~~by~~ ~~shelter~~ ~~by~~ ~~shelter
