

QUESTIONS FOR NASON & FINCH: SLO DEMOCRATIC CLUB 4 December 59

1. What will be the major issues discussed from the Democratic Party's viewpoint in regard to labor, labor bossism, and labor finance and its abuses? How will you stand on this issue?
2. How would you propose to increase democracy in unionism?
3. How do you think a congressman should keep his constituents informed? How do you believe this should be accomplished and paid for? What part can the clubs play in disseminating information whether we control an elected office or not?
4. List four major political-economic-social problem of the district or any particular county of the district?
5. What suggestions do you have for a campaign organization for such a difficult district?
6. What do you expect Mr. Teague to use as his platform?
7. Do you believe the CVA will be a major campaign issue in the Congressional race? What will be the major differences in opinion between you and Teague? What further information should we have in order to inform our citizens?
8. What should the Demo Party do to develop a forward-looking policy on welfare? What should the policy be toward the aged or aging or retired---how can we make it into a strong, overall program? How about the health programs for citizens 25-65 who are in the lower middle income class?
9. What is your feeling on the national debt?
10. What can we do to curb inflation? How should our party stand on this issue? How will it effect our other programs?
11. What should be the stand of our congressman on federal assistance to education, either or aid to building programs, teacher salaries, research into new curriculum and methods, reorganization of districts....
12. What should our Party position be on urban growth and the concomitant transportation, services, cost problems that come with it?
13. What do you believe the Party's position on armaments should be since so much of our economy is based on military expenditures?
14. Where do you think the candidate should spend his greatest campaign efforts in this district? Where do you believe he should spend his campaign funds? How should these funds and plans be controlled to give both the candidate and the Party the maximum returns?
15. How do you expect to cooperate with Demo candidates who are running for other offices?
