Ventura, Ca. 93003

Dear Supervisor Erickson:

We have recently become aware that the County of Ventura does not have a Commission on the Status of Women. Since the majority of the population are women and are faced with unique problems not easily seen for which solutions may also be unique, we are strongly urging the Board to establish the Commission.

Enclosed is a resolution recently passed at the board meeting of the Ventura County Branch (AAUW). Our members are interested in learning when the Board of Supervisors will again consider establishing a Ventura County Commission on the Status of Women so that we may personally support its adoption.

Sincerely,

Laura King
