Dear Miss Tolmach:

Somehow the person who does the most work for a particular event is the one who winds up getting the least thanks, if any at all. In connection with my trip to Oxnard last fall, that person is you.

I know how much time and effort you put into that visit and I still cannot believe I did not write before this to express my deep appreciation. At any rate, I did want you to know that I was most grateful for all your work and will always remember, with great pleasure, my visit to Oxnard.

With warm regards,

Sincerely,

  
Robert F. Kennedy
