## HOW YOUR CONGRESSMAN WORKS FOR YOU

From the opening day of a session, the primary function of Congress is to formulate the laws by which we are governed. While a Congressman must act for the country as a whole, he must also bring to Congress the viewpoint and understanding of the people of his district and their special conditions and problems. In other words, Chuck Teague's most important duty is representing **you**. The thousands of bills introduced every session are directly related to your security . . . your job . . . your home . . . your family . . . and your future. It's important that you let him know your thinking. Send him a letter . . . you'll always receive a prompt, courteous and frank reply.

# WHERE TEAGUE STANDS

## TEAGUE SUPPORTS:

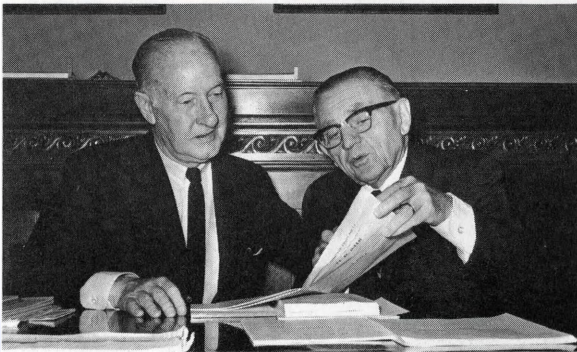

National strength through such measures as expanded missile programs, broadened aerospace efforts, Defense Department reorganization and a mutual security program. Congressman Teague's support of these goals has continuously been beneficial to the people of his home district, helping to create a healthier economy and new job opportunities through military and industrial expansion at and near Vandenberg Air Force Base, Port Hueneme Naval Base, Oxnard Air Force Base, Point Mugu Missile Center and other installations throughout the District.

In the area of human rights, Teague's voting record on social legislation shows support of 1) improved minimum wage laws, including farm labor; 2) wage increases for postal employees and other government workers; 3) cost of living increases in Social Security payments to our older citizens; 4) increased compensation to disabled veterans; 5) Medicare; and 6) civil rights, except compulsory "open housing".

## TEAGUE IS FIRMLY AGAINST:

Aggression and attempted communist subversion of sovereign countries, as shown by his deep concern for the preservation of Asian and Southeast Asian independence. Teague firmly supports a three-pronged approach to our Vietnam policy, including: 1) de-Americanizing the war; 2) strengthening the South Vietnamese government; and 3) the active pursuit of diplomatic conferences with the enemy that will form the framework for legitimate peace talks.

Teague is against deficit government spending. He believes that, except in the case of a national emergency, the government must remain within its budget. In his position on the House Agriculture Committee, Teague's votes have always been aimed at holding down essential food prices and eliminating farm subsidies.
