Jerry,

I will be delighted to speak to your class, Tuesday, Nov. 27th - I will see if Cesar, Beatriz and Carmen are able to attend. If OK with you I will present the NorthernStar CD and also talk about CAUSE Projects. I was away on travel - thus did not see your e-mail until today. We will organize a presentation and talk to you about it - make sure it will be of interest to the students.

I am looking forward to working with you - developing a Model we can use with other Community Colleges.

Lupe

Dear Lupe,

Your proposal to speak with our class sounds wonderful. However, we do have a service learning requirement this semester in our Humanities class and we will be doing a week on the environment and we were hoping that you might be able to speak to our class this semester. In fact, if there is any way that you can do it, Tuesday, November 27 would be a perfect opportunity to present something to our class, which meets from 8:30am-11:20am, even if it was a half hour or an hour. What do you think?

Thanks,

Jerry

Jerry Caplan, Ph.D.
