Architect Merchants Exchange Bldg Sanfrancisco Calif

Planting color schemes good unfortunately we dont know all the
plant mentioned we would like abundance of roses not merely
for economy but for beauty would like climbing roses over
plaza side of houses suggest bourganvillas finest and largest plants
to climb over south walls of a covering the tall

bare walls of the high terraces suggest planting some oleanders
also heliotrope suggest french flowering cactus red white yellow in
little courts of B and C where well protected think

we could use some seasonal schemes to get flowers like

hollyhocks old fashioned but coloristic or sweet suggest some flowering

trees like magnolia flowering eucalyptus and blue flowering tree seen
in santabarbara advise italian cypress for certain effects like around
fountain in model of house C dont think I like

ivy for bedding it is too black and buggy general scheme very
satisfactory please proceed use some palms in protected places
